THE LATEST NEWS.

Condensed Telegrams from All Quarters.

—Sir Lamberton Lorraine sailed for England on Saturday.

—There were thirty-three cases of small pox in New York in the past week, an increase of fourteen over the previous week.

—Rev. O. Eastman, Honorary Secretary of the American Tract Society, died in New York on Friday. He was born at Amherst, Mass., in 1796.

—William Brant and his two sons, aged 12 and 9, while fishing on the lake near Halifax, last Friday, fell through the ice and were drowned.

—A considerable quantity of muskets, small arms, and ammunition was shipped from St. Louis, on Saturday, for Little Rock, said to be for Brooks.

—The Federal Council of the International Society resolved last Saturday night to dissolve the organization, having proved a complete failure in the United States.

—The New York Excise Commissioners have refused to aid the Liquor Dealers Protective Association in obtaining the passage of a bill through the Legislature reducing license fees, &c.

—A prostitute named Maria Hunt attempted to commit suicide at Lafayette, Ind., last Saturday night, by swallowing chloroform and ammonia. A physician and a bottle of sweet oil saved her life, however.

—Frederick Schuchart & Sons have begun a suit in the Supreme Court of New York against the Lake Erie & Louisville Railway Company to recover an indebtedness of $430,000 and interest, arising upon unpaid promisory notes.

—Everett Babbitt, supposed, from papers found on his person, to be from Massachusetts, was run over and killed by a train on the Missouri Pacific Railroad on Saturday afternoon at Kirkwood, fifteen miles west of St. Louis.

—A new nine-story French flat hotel in New York, known as the Stevens House, has been suddenly deserted, owing to the bulging of a wall and the serious cracks and crumbling of bricks, extending from the second to the fourth story.

—All the lodges of Odd Fellows in Cincinnati met at Pike's Opera House yesterday to celebrate the anniversary of the introduction of Odd Fellowship into the United States. Samuel Yorte Atlee, of San Francisco, Cal., delivered the address.

—The St. Louis *Times* asserts that two thousand Springfield rifles, thirteen thousand rounds of ammunition, and several cases of pistols have been shipped in a secret manner for the use of Brooks' forces in Little Rock since the difficulties broke out there.

—An old man named Lyton White, sixty-two years of age, has been arrested in Cleveland for enticing little children into his candy and trinket shop, near a public school, and instructing them in every vulgarity of speech and practice. He was sentenced to one year in the Work-house and fined three hundred dollars and costs. His victims, he said, he counted by scores.

—Messrs. Arnold, Wolff and Villard, members of the Council of Foreign Bondholders of Frankfort, have arrived in New York with a view of arranging the differences between the several classes of American bonds now in default, and of arranging with the companies for terms of accommodations, or in case of a resort to legal proceedings, to protect the claims of their bondholders.

—A Washington dispatch gives an opinion of Sir Edward Thornton filed on Wednesday last, in the case of Rafael Aguirera vs. the United States, awarding that the motion heretofore made by the agent of the United States to dismiss and reject this claim be allowed, and the claim was accordingly rejected. This was a test case of a class known as Indian depredation claims against the United States, the aggregate of which amounted to some thirty-one million dollars.

—John Davis, residing near Otisco, Clark county, Indiana, on the line of the O. & M. Railroad, was found by his two daughters, who were returning home from church last Friday night, in a horrible condition. Both legs and hands were cut off, and part of his head gone, which could not be found. The heart was torn into fritters and scattered along the track some distance. The jury returned a verdict of death by being run over by a train, the deceased being intoxicated.

—In the case of Margaret Black, of Fall River, Mass., against Andrew Weeks, of the firm of Weeks & Potter, of Boston, before the Supreme Court at Taunton, the jury returned a verdict for the plaintiff, giving her $15,000 damages. The plaintiff was nearly poisoned fatally by aconite, which she took, supposing it to be piera. The aconite was put up at the establishment of Weeks & Potter, and, as alleged, labeled "Piera" by mistake, and sold to a Fall River druggist, who supplied it to the plaintiff.

—Although Congress has passed a bill for the relief of the sufferers by the overflow on the lower Mississippi, it has been found that no supplies can be had from the various military stations in that region, therefore the Secretary of War, after a private conference with the President, directed the Commissary of Subsistence to purchase 500,000 rations of meat, flour, beans and rice, and to carry the law into effect, he asks an appropriation of $90,000. The estimate is based on the issue of 20,000 rations for twenty-five days.

CRIMES.

—George A. Hutchinson was arrested in New York on Saturday night, at the request of the Governor of Ohio, on a charge of having committed forgeries in Cleveland.

—Michael Finn, charged with assaulting his wife with intent to kill, on the 6th of November, at Thorold Village, Canada, was found guilty of murder in a legal sense, and has been sentenced to death. Finn was mainly convicted on the evidence of his wife, who has recovered.

—The train from Cincinnati for Louisville, on Saturday morning, found two rails removed from the track on the Short Line, near Caverna station. The parties evidently had no intention except to delay the train, as they placed a red flag at that point. Only half an hour's delay was caused by the obstruction, as the rails were easily replaced.

—Dr. Paul Schoeppe was brought before Judge Garry, in the Chicago Criminal Court, on Saturday, to receive the sentence on a former conviction for forgery, which sentence was at the time suspended. Col. Jussen, the prisoner's counsel, moved his discharge, and delivered a long argument in support of his motion, at the close of which Judge Garry took the matter under advisement until to-day.

—Dennis Cummins and Patrick Curtis met at the Morris & Essex Railroad yard in New York on Sunday, with a number of friends, for the purpose of fighting a duel to settle an old grudge, but when the time came for them to take their positions Curtis refused to fight. John Lemas stepped forward and interfered in Curtis' behalf, when Cummins drew a revolver and shot Lemas, inflicting a fatal wound. Cummins and Curtis were arrested.

FOREIGN.

—A rumor is current that the Carlists have asked Marshal Serrano for amnesty.

—Senor Castelar has written a letter in which he declares himself in favor of a Federal Republic.

—A private letter from General Sickles says he will return to the United States in two months.

—Grand Duke Alexis is the only member of the Imperial family who will accompany the Czar on his visit to England.

—It is reported that Carl Schurz has accepted the editorship of a leading German daily, in New York, at $10,000 per annum.

—There were two railway accidents in England on Saturday, resulting in the death and injury altogether of twenty persons.

—Emperor William in person closed the session of the German Reichstag on Saturday with a formal speech of no general importance.

—The accountants appointed to investigate the books of the Erie Railway Company will sail from London for New York on Wednesday.

—Advices from Constantinople are to the effect that the Suez canal diffculty has been settled by M. De Lesseps' acceptance of the tonnage rates prescribed by the International Commission.

—A Paris dispatch states that on Thursday Frank Riggs and William Payne, Americans, went to the Belgian borders to fight a duel, but the police interfered, and the duelists returned to their residences. Words spoken about a young lady is given out as the cause of the meeting, but the real reason is said to be an affray between the fathers of the young men a fortnight ago in the Washington Club in Paris.

THE entire Rouseville district produces less than three hundred barrels of oil per diem. The Shaw farm alone used to yield treble this quantity, while the famous Reid well, on Cherry Run, for months panned out two hundred and eighty barrels a day.

FIRST EDITION.

THE LOUISIANA FLOOD.

5,000,000 Acres of Land Under Water

25,000 People in Want of Food.

Letter from the Captain of the Ouachita Belle.

NEW ORLEANS, April 25.—Captain Banks, in a letter to a member of the Relief Committee says: I have just returned with the Ouachita Belle from Camden, Trenton and Monroe, through the overflowed district of North Louisiana, and see that efforts have been and are being made to relief the suffering occasioned by the overflow. I have also seen a tabular statement which was presented by you to a meeting of citizens from the overflowed districts held in the Senate chamber some time last week. From personal knowledge and direct information derived from others within the last few days I am satisfied that said estimate is by far too low. As you have been requested by three different public meetings held in the overflowed districts of Louisiana to represent their wants and condition, I now present you a statement of the

Localities and Numbers Needing Help

at once, so that you may present the same to the Governor and the Committee on Distribution appointed by his Honor and the Mayor: Lower Black river, 300; Mardes, including that part of Concordia parish on Black river, 500; Wilsons, on Black River, 400; Trinity, 1,200; Harrisonburg, including Bayou Louis, 1,000; Starb's Landing, including Brain's Landing, 300; Carter's Landing, 400; Bunker Hill, including both sides of the river and swamp, Baloven, Ouachita and Boeuf, 1,500; Columbia, including Franklin and Ouachita or Boeuf, and between the Ouachita and Boeuf river, 2,000; St. Albans, including the bottom on both sides, 1,500; Hopewell and Waco, including the back swamp up to the Ouachita line, 1,000; Monroe, 1,500; Total, 11,600.

At the lowest estimate this number may be said to be in actual want, and many have been so for days, as they have now been under water some two or three weeks. They have lost all their hogs, and their cattle are either lost or starving. The people themselves have neither money nor credit—no place to go to and nothing to do. But this estimate by no means discloses the distress of those residing on small bayous and creeks, who have been overflowed by back water and the floods of the dam there, and generally have been on land, but have lost most of their stock and improvements, and are out of provisions and money. If these be added, the number needing help is not short of 25,000.

The Extent of the Damage.

The *Times* says the extent of the damage which resulted from the great overflow is just beginning to be fully understood. That it was vast was readily conceived, but that it should involve 5,000,000 of acres and a population of 178,000 was apparently beyond reasonable calculation. Yet such is really the case. In the cotton regions it is now ascertained that nine of the largest and richest parishes producing cotton have been inundated. The parishes of Carroll, Morehouse, Richland, Madison, Franklin, Tensas, Caldwell, Concordia and Catahoula are all overflowed, and embracing fully 2,500,000 acres. The amount of cotton lands in these parishes in actual cultivation is ascertained to be 250,000 acres, besides 100,000 acres in corn. These estimates include only large places, leaving out hundreds of small farmers, and all estimates for cattle, hogs and gardens. The population of these nine parishes is 20,304 whites and 54,033 blacks, according to the census of 1870.

In the sugar producing parishes ascertained facts discover an equal, if not a greater, amount of ruin and suffering. These parishes are Pointe Coupee, East Baton Rouge, West Baton Rouge, Herville, Ascension, Assumption, Lafourche, St. James, St. John the Baptist, St. Charles, Terrebonne and Plaquemin. The overflow in these parishes covers nearly 2,500,000 acres, tilled and untilled, including a production of 80,000 hogsheads of sugar, besides a large product of rice, and the crops of small farmers, of whom there are many hundreds who have lost their stock and pretty much everything else they possessed.

An Appeal for Assistance from Trenton.

A dispatch from Vidalia, Concordia parish, says: A public meeting assembled here to-day. Five thousand people in this section were represented as suffering for food. A committee was appointed to procure supplies. The Mayor of Trenton telegraphs: "We are all overflowed. Send us 5,000 rations by the Ouachita Belle, if possible. The colored population in particular are in distress."

A Town Surrounded by Water.

MONROE, LA., April 25.—The river has risen over an inch in twenty-four hours. Another break in the Pargoud upper levee has precipitated a heavy volume of water on the back part of the city, and the rise there at the same time has been five inches. The water has backed up in the ditches nearly to the Hunsacker Hotel. In some places on the river front the water is from six to fifteen inches above the street, but has been leveed. The rear of the city is filling up fast, about five squares on an average from the river front to the overflow being out of water the length of the city. People continue coming in from the rear as the water approaches. The sidewalks and streets are the only pastures for stock. The loss of cattle and hogs by the overflow is very great. The sun shone all day. The prospect is good for better weather. There is no intelligence from above, but another rise is expected from recent rains.

MONROE, LA., April 26.—The river rose one quarter inch last night, and the back water an inch and a half. Washington street is overflowed to within three blocks of the river. The river was on a stand to-day.

The Mississippi Falling.

NEW ORLEANS, March 26.—The river is falling now. It is two feet below high water. From five to seven days' mail is due from Northern, Eastern and Western cities. The New York mail of the 15th and some of the 20th has been received. Intervening and subsequent days are missing. The Mobile and New Orleans Railroad lose a bridge or have a wash-up every few days, and seem to display more energy in choking off information of mishaps than in getting over breaks. New and at least important bridges are gone between this city and Mobile. The Jackson route is also in a bad condition. Bridges are gone and a portion of it is submerged.

ARKANSAS.

The Gubernatorial War.

LITTLE ROCK, April 25.—There has been little change in the situation to-day. The truce between both parties was put at an end to-day. Yesterday Baxter, through his representatives, made a proposition to Brooks to leave the final determination of the question between them to a competent tribunal, and in the meantime that both forces should be retired except a body guard for each. These proposals Mr. Brooks last night refused to accede to, whereupon all negotiations were ended and matters remain now where they did one week ago, except that Baxter has convened the Legislature, the meeting of which body Brooks is opposed to.

Gen. T. J. Churchill was to-day assigned to the command of the Middle Division of Gov. Baxter's force, and Brig. Gen. McDowell Barton promoted to Major General and assigned to the command of the Eastern Division. Brig. Gen. W. D. Blasher was assigned to the immediate command of the forces on duty in Little Rock. Neither party has dismissed any forces during the past twenty-four hours. The Federal troops are stationed at the Metropolitan, at City Hall and at the corner of Main and Fourth streets, with two pieces of artillery at the intersection of Louisiana and Second. Gov. Baxter has increased his force one or two companies.

Secretary of State Johnson has not yet received any reply to his communication to Brooks ordering him out of his office. At the State House preparations are still going on to resist an attack.

News from Pine Bluff to-night states that Brigadier General H. King White, of the Baxter forces, to-day declared martial law in Jefferson county, and took possession of the Court House at that place.

THE STORM.

Four Feet of Snow in New York.

POUGHKEEPSIE, N. Y., April 26.—The storm of yesterday and last night at Boston Corners was terrific, and heavier than known before in years. The Harlem mail train was compelled to lay over at Millerton for fear of being blown from the rails. At Weissman's cut the snow was four feet deep.

Vermont.

MONTPELIER, VT., April 26.—It began snowing here last evening, and one foot of snow fell in twelve hours. It was one of the heaviest snow storms of the season.

RUTLAND, VT., April 26.—A terrific gale at Bennington, Vt., demolished a steeple one hundred and sixty feet high on the new Congregational Church. Part of the falling steeple struck an adjoining residence, crushing in the roof. The snow drifted ten feet deep to-day.

Pennsylvania

PHILADELPHIA, PA., April 26.—A wind and rain storm passed over the city yesterday and to-day, causing considerable damage. Two houses in course of construction on Mifflin street were blown down; also a house on Frankford.

Massachusetts.

BOSTON, April 26.—A severe snow storm, accompanied by a severe gale, has prevailed throughout the New England States to-day. The snow is from six inches to a foot in depth. At Rockland the gale has been the severest experienced for years, and resulted in much damage to shipping. Six or seven vessels are ashore. Twenty inches of snow is reported at Danbury, Connecticut.

THE Rob Roy well at Karns City is still doing 300 barrels. The well on the Banks farm that struck the fourth sand on Monday is not doing as well as expected. She will probably make a fine paying well when she is pumped, but she is not the gas to make a spouter.

FORTY-THIRD CONGRESS.

FIRST SESSION.

WASHINGTON, April 25, 1874.

HOUSE.

Legislative Appropriations.

The House went into Committee of the Whole, Mr. Woodford in the chair, on the Legislative Appropriation bill. The amendment pending yesterday appropriating $1,000,000 to pay judgments of the Court of Claims, was agreed to without discussion.

Mr. NESMITH moved to strike out from the paragraph relating to the Department of Justices the item of $1,400 for the care and subsistence of horses, and $600 for repairs to carriages and harness. Agreed to.

Mr. G. F. HOAR moved an amendment providing that no civil officer of the Government shall hereafter receive any compensation or perquisites, directly or indirectly, from the Treasury, or property of the United States, beyond the salary or compensation allowed by law, or shall have any private use of such property, or of the services or labor of any person employed in the service of the United States, which service or labor is paid for by the United States, provided this shall not be construed to deprive any officer of the United States of such fees as are or may be provided by law in addition to the salary of such officer, or of the use of such property as may be expressly by law appropriated for the use of such officer. Adopted.

Mr. WILSON moved an amendment providing that every Clerk of the Circuit or District Court of the United States, Marshal or District Attorney shall reside permanently in the district where his official duties are to be performed, and shall give his personal attention thereto, and in case any such officer shall remove from his district or shall fail to give his personal attention to the duties of his office, except in case of sickness, such office shall be deemed vacant. Adopted.

The Undistributed National Bank Currency.

Mr. BECK sent to the Clerk's desk and had read a letter from the Comptroller of the Currency in defense of the Comptroller against the allegations made by Mr. Beck yesterday in reference to undistributed national bank currency. Mr. BECK said he caused the letter to be read because the Comptroller could not be heard in his own defense. He (Beck) maintained that the Comptroller had not administered the law. The fifty-four millions in his hands ought to have been distributed to States which had not received their proportion. The Comptroller had been circulating speeches of members on the financial question, and had gone out of his way time and again in the interest of a rich, moneyed aristocracy of the East, and to the injury of the poor people of the West and South.

Mr. DAWES replied to Mr. Beck, and said the Eastern States had come by an excess of bank circulation because the West and South would not take it, having found a more profitable investment of their money elsewhere. If it were necessary for the proper distribution of the currency that twenty-five millions be withdrawn from New England, New York and New Jersey, they would not resist it. They desired two things. They desired free banking on the basis of greenbacks at par. They did not desire to bring greenbacks to par by such contraction as would make the holder of a greenback pay the difference between its present value and its par value. They desired that the Government should pay that difference. The Government had made a promise and forced the people to take it. The Government, and nobody else, had depreciated it. The Government, and nobody else, should pay that difference. The Government had not got gold to pay the difference. The Government should say, as an honest man would say: "I will do the next best thing. I will exchange for the greenback I have forced you to take a Government bond bearing such an interest as will make it par." And then the Government should make banking free all through the United States.

After further discussion and a tilt between Messrs. Dawes and Kelley and amid great noise and confusion, the members exhibiting great impatience at any disposition to talk, and meeting all such attempts with shouts of "vote," "question," the third section of the bill, increasing the office hours of the departments from six to seven hours, was struck out on motion of Mr. Lawrence.

Unexpended Balances.

The last section of the bill, which provides that on the 1st of July in each year, all unexpended balances of appropriations that shall have remained upon the books of the Treasury for two fiscal years, shall be carried to the surplus fund, was amended, on motion of Messrs. Conger and Tremain, by making an exception in favor of river and harbor improvements, light-houses and certain public buildings.

At last the consideration of the bill was concluded, and the committee rose. The question was ordered, and the House adjourned.

NOTES FROM OUR NEIGHBORS.

THE tocsin has sounded for the war on whisky in Oil City.

2,000,000 feet of lumber are laid up at Foxburg, waiting for a rise.

"DOLLAR OIL no more" is the producers war cry in oildom.

POTATO BUGS are moving around in Fayette county in large numbers.

A MAN named Wolf was killed at Foxburg on Wednesday, by being run over by a freight train.

JAMESTOWN is boasting over a manufactory of alapaca and worsted yarns, just started there.

MCKEESPORT mourns because thirty circuses are on the road, and yet none are billed for that village.

THE residence of Joseph Lawrence, in Sadsbury, Crawford county, was burned on Thursday night last.

CONFLUENCE, on the Connellsville Road, gives a sign of life by the establishment of a new tannery there.

THE number of insane in the State lunatic hospital, county almshouse, etc., in the State is nearly 4,000.

A WEDDING party in Meadville was delayed on Wednesday, by a free fight between the groom and two brakemen.

THE "shut down" in the oil regions commenced Saturday night. No more drilling for ninety days, according to the agreement.

JONH LYSLE, ESQ., of Camden, started last week for the Pacific coast. He visits Washington Territory to look after his coal interests near Puget Sound.

THE Isabella Coke Company paid off the men at Coketown, near Blairsville, on Saturday. They are now working full time and at the full capacity of the works.

THE editor of the Huntingdon *Globe* has been found guilty in the libel suit of A. B. Brumbaugh vs. A. L. Guss, and he now writes his editorials in the county jail.

CHESTER county has nineteen lodges of Odd Fellows and two encampments, and is also possessed of twenty-two granges and two councils of the Patrons of Husbandry.

THE Beaver county *Press* was sold at Sheriff's sale in New Brighton, on Monday. The purchaser was Mr. J. C. Hays, father of the editor, and the price paid for it was $1,994 75.

THE whole number of pupils enrolled in the Johnstown borough schools during the term foots up a total of 1,210. The average attendance during the month ending Wednesday last was 844.

C. E. B., of Pulaski writes, "Yesterday, April 23, my friend washed a linen sheet and spread it on the grass, and in six hours the grass had grown up through it from one quarter to one and a half inches."

Mr. JOSEPH BROWN, of Conemaugh Borough, shot a very large wild cat on Laurel Hill, near Morrellville, Cambria county, Friday afternoon. It measured 52 inches from nose to end of tail, and was nineteen inches high.

Mr. THOS. WAITE, of Chippewa township, father of the Sheriff of Beaver county, out of a flock of twenty-seven fine sheep, one day last week, had twenty of them killed, and the rest torn and mangled by the dogs.

ON Monday morning, the 13th inst., the barn of Geo. Warfel, near Petersburg, with all its contents, including a quantity of hay and farming implements, were destroyed by fire. The loss is estimated at $25,000. No insurance.

THE name of the postoffice at Yortyville, Washington county, has been changed to "Odell," and Eliza J. Dague has been appointed postmistress. The change will go into effect at the beginning of the next quarter, July 1st.

THIS is the way the Brookville *Republican* says it: "Those persons who borrowed the history of the "Primative Ages," "Don Sebastian," and other books from the Senior Editor of this paper, will confer a favor by leaving them at the postoffice."

THE Ebensburg *Herald* says that a young legal limb of the law who resides in that village wants to be cremated when his turn comes. All right! He'll cremate.—*Johnstown Tribune.* How do you know he will? Does the editor expect to be there?

ON Thursday afternoon, the 16th inst., the house of Morris F. Fussell, M. D., of East Pikeland, was burned to the ground, which was caused by a defective flue. The same evening the barn was fired in a very mysterious manner, completely demolishing it.

A WOMAN named Grey, a resident of Banks township, Indiana county gave birth to a monstrosity in shape of a child, with perfect eyes on the top of its head, its mouth filled with teeth, and its fingers joined together like the toes of a duck. It was dead when born.

A TEACHERS' INSTITUTE was held at Green Tree schoolhouse, Union township, on the evening of the 17th inst., and during the following day. The county Superintendent and some of the city teachers were in attendance. Several addresses were delivered, some essays read, some sensible resolutions adopted, and there were some other performances. The Secretary was directed to furnish for the press a copy of the minutes. His failure to do so must be our apology for this meager report, and the lateness of its appearance.

ON Monday evening last, the house of John Reddinger, of Ringgold township, Jefferson county, was burned, and one of his children, a little boy, perished in the flames. Mr. Reddinger and his went to see a sick neighbor during the evening leaving four children at home, who in their absence went to bed, leaving a burning candle on the bureau, which by some means set fire to it and the surrounding furniture, the children being waked up by a suffocating smoke in the room. Three of the children escaped, but one was burned to death, its body being taken from the ruins a blackened and disfigured mass, almost consumed.

THE CAPITAL.

An Open Fight to be Made on the Vetoed Finance Bill.

The House Bill to be Considered by the Senate this Week.

Letter from the Comptroller of the Currency.

A New Plan to Redistribute the National Bank Currency.

Special Dispatch to the Pittsburgh Gazette.
WASHINGTON, April 26, 1874.

The Veto Message and Finance Bill

continue the all-absorbing topics. Compromises have been tendered to the friends of the vetoed bill, but declined. They adhere to the determination reached at the first meeting on Wednesday night, and stated in your Thursday's dispatch, to make an open fight in the Senate when the subject comes up for discussion on a motion to pass the bill over the veto. There has been some talk of a formal protest against the message, signed by Senators who supported the bill, but nothing of the sort has been as yet determined upon. DIAMOND.

WASHINGTON, April 25, 1874.

Letter from the Comptroller of the Currency.

A letter addressed to Representative Beck by Comptroller Knox, dated to day, and read at the request of Mr. Beck in the House, calls the attention of Mr. Beck to his statement of Friday that the Comptroller had represented to the President that four millions of the national bank currency was not taken, when there were one hundred and twenty applicants for it, and that he had deceived the President and held circulation to save twenty-five millions to his friends in the East. The Comptroller asks Mr. Beck to cause to be read in the House an extract from his last annual report showing the difficulties in the way of the execution of the act of July 12, 1870. The substance of the extract is, "That under the Act of July 12, 1870, the Comptroller is required after the fifty four millions is taken up, to make a requisition upon the banks of New York city, Massachusetts, Rhode Island and Connecticut for twenty-five million, and if those requisitions are not complied with, within one year thereafter he is authorized to sell their bonds and deposit legal tenders in the Treasury. But there is no provision in the act for the return of national bank currency to the Treasury for redemption, and the act is, therefore, inoperative, and under its provisions no considerable amount of national bank currency would be returned for distribution for eighteen months after the requisition is made."

The Comptroller also asked Mr. Beck to read a copy of a letter addressed by the former to W. W. Phelps, of the Committee on Banking and Currency, on the 3d of February last, enclosing a bill which he prepared for the purpose of promptly withdrawing twenty-five millions of national bank circulation from the Eastern States and distributing the same to the West and South. The bill of the Comptroller requires national banks in the States named in the letter to Phelps to deposit legal tender notes in excess of $300,000 of their circulation with the Treasurer, and requires the Treasurer, Assistant Treasurers and depositaries of the United States to assort the circulation of these banks and return it to the Comptroller for destruction, and authorizes the Comptroller thereupon to surrender to the banks the bonds held as security for such circulation. The circulation of notes of banks which failed and are in liquidation are also to be assorted and returned to the Comptroller for destruction, and immediately thereupon the amounts destroyed are to be reissued to banks in the West and South. The Comptroller is confident that within sixty days after the passage of the act he can supply every application from the West and South for the next two years with currency withheld from other States.

The Sanborn Investigation.

The Committee on Ways and Means to-day examined Simon Herman, who testified that he was a general auctioneer and commission merchant in New York. During his examination by Representative Beck, he said in April, 1872, he was indicted in the United States Court for the alleged selling of liquor on which the tax had not been paid. Although perfectly innocent of the charge, he paid several sums of money to have the case dismissed. On the hearing of the indictment he went to Court and gave bail. A. Goodrich Fay soon come to him and said he could have been dismissed by the payment of two thousand dollars, which money was to be divided between Fay and Sanborn. He also paid one thousand dollars to Judge Davis, at that time District Attorney.

To Mr. Foster, of the committee, witness said he never met Sanborn on the subject. His conversation was with Fay alone, and he paid two thousand dollars demanded to get rid of the scandal, although he was entirely innocent of the charge.

In answer to Mr. Davis, of the committee, witness said checks were given on the same day, the understanding being that this was all one arrangement and in accordance with instructions from Washington. He spoke to Judge Davis on the subject, who said to witness: "You had better let the matter rest." He did not tell Judge Davis that he had given two thousand dollars to other parties. When he went out of Fay's office he met DeKay, Assistant District Attorney, who said: "Judge Benedict is on the bench, and the case has been dismissed, in accordance with orders from Washington." Witness then gave a check to Judge Davis.

WASHINGTON, April 26, 1874.

The Finance Question.

The Senate Finance Committee will this week consider the House finance bill. It is thought by many conservative men that a bill may be framed, acceptable to the Senate, combining the feature of redemption proposed in that bill, with the right of the issue of additional bank notes, on the condition that a certain proportion of legal tender notes shall be withdrawn at the same time, and many are of the opinion that if such a bill shall be reported from the Senate committee, with a provision authorizing free banking, it will pass the Senate and House and receive the approval of the President.

OUR WASHINGTON LETTER.

Correspondence of the Pittsburgh Gazette:

Arrival of Emigrants at San Francisco.

Official returns made to the Bureau of Statistics show that during the quarter ended March 31st, 1874, there arrived at San Francisco 1,619 immigrants, of whom 1,481 were males and, 138 females, under fifteen years of age, 258; fifteen and under forty, 1,272; forty and over, 89. Of the total number arrrived, 76 were from Mexico; Australia, 218; Sandwich Islands, 30; Tahiti, 15; Vancouver Island, 70; and China, 1,250. Their occupations were as follows: Butchers, 7; blacksmiths, 4; Bricklayers, 9; bakers, 2; clerks, 23; cigar makers, 2; carpenters, 2; farmers, 39; laborers, 1,234; merchants, 16, musicians, 6; miners, 91; machinists, 2; mariners 6; stonecutters, 8; shoemakers, 6; weavers, 3; without occupation, 187; died on the voyage, 3.

The Utah Bill.

The House Committee on the Judiciary has agreed upon an amendment to the Utah bill which provides that jurors shall be selected from among all citizens of the United States, residing in the Territory, 21 years of age and over, who can read and write. This is considered as a compromise between the two factions of the Territory, and is understood to be acceptable to both parties. With this amendment the committee finished the consideration of the bill and ordered it reported to the House.

Stenographers at Eight Dollars a Day.

The House Judiciary Committee has authorized a bill to be reported to the House allowing Circuit and District Judges throughout the United States to employ stenographers at a salary of eight dollars per day to report the decisions and proceedings of their courts. This is considered as a very essential matter and will very much facilitate the keeping of such records in a correct and proper manner.

No Land Grants to Railroads.

The House Committee on Public Lands has decided to report adversely upon all the bills before them granting lands to railroads. They consider this wise, as long as the present method of speculation in lands is practiced, and if the railroad companies could be restricted in the disposition of their lands to fair prices and bona fide settlers who would take not over 160 acres of land and who would settle upon and improve it, then there would be more of a disposition on the part of Congress to place the lands in their keeping by liberal land grants. But the present method is known to be inimical to the interests of settlers and the Government.

New Territory Proposed.

The House Committee on Territories are at work upon a bill to create a new Territory to be called Pembina. The committee is composed of members who are in favor of such measures, and if no serious objection is brought against the measure it is quite likely that the new territory will be formed. DIAMOND.

HARRISBURG.

Governor Hartranft Signs the Tax Bill—The Feeling of the House on Finances.

HARRISBURG, April 25, 1874.

The Tax Bill.

The Governor has signed the new Revenue bill, imposing a tax upon corporations. The bill also includes a tax of three cents per ton on all coal companies, and a tax on dividends.

Testing the House.

The House was tested as to its standing on the finance question on Friday afternoon, in this way:

Mr. BROCKWAY offered the following:

"*Resolved*, That this House has learned with unfeigned satisfaction that the President of the United States has vetoed the act recently passed by Congress to increase the legal tender currency to the extent of $44,000,000. We regard this act of the President of the United States as an augury of a speedy return to a sound financial policy."

Mr. MYER offered the following amendment: "That this House endorse and approve the general policy of the administration of U. S. Grant, President of the United States, and the administration of the State of Pennsylvania."

The amendment was agreed to—yeas 57, nays 36.

The resolution, as amended, was then adopted.

This caught the Democrats, as the question then came up on the adoption of the resolution as amended. They all voted against it, but the amended resolution was nevertheless adopted.

NEW YORK.

NEW YORK, April 25, 1874.

Decrease in the Travel to Europe.

Inquiry at the offices of the different steamship lines shows that the aggregate number of travelers to Europe this season will probably be much less than in 1873. This reduction is generally attributed to the effects of the late panic and unsettled state of currency. While many in consequence cannot afford the luxury of an ocean trip, others who could well bear the expense have deemed it inexpedient to leave their business, and this situation of many heads of families has kept at home their dependants. Some influence, it is said, has also probably been exerted by the fact that there are no usual attractions in Europe this year and by the dread of ocean perils inspired by the late disasters.

Outward freights this season are generally abundant, and in some lines show an excess over last year. The recent disasters to the General Trans-Atlantic Company have not, it is said, perceptibly affected the number of passengers by French steamers, as but few of those booked have withdrawn their names, and the St. Laurient, which sails a week from to-day, will carry about one hundred and fifty. A considerable falling off from a year ago is expected during the season from the same causes which affect other companies.

The Steamship Silesia.

The agents of the Hamburg-American Packet Company have received no dispatches to-day in regard to the steamship Silesia, reported by cable aground in the Elbe and in a dangerous position. The Silesia is an iron screw steamship, built at Greenock in 1869, and is regarded one of the best vessels of the Hamburg line. She is about 350 feet in length, 40 in depth, and of 3,400 tons burden. She sailed from this port for Hamburg on the 11th of April, with a full cargo, consisting of 7,000 bushels of grain and a large quantity of provisions and tobacco. Being an extra steamer, she carried but fifteen passengers, of whom eleven were steerage. Her cabin passengers were J. Grossmann, Ernest Polig, Leopold Weil and Miss Leonhard.

St. John's Guild.

St. John's Guild met to-night, Rev. Morgan Dix presiding, and adopted amendments to the canons permitting the election of a Master of Guild, whether or not he may be amenable to the authorities of Trinity parish, and then chose Rev. Mr. Wiswall, lately relieved from St. John's chapel by the vestry of Trinity parish. Dr. Dix stated that if the canons were changed as proposed, the Guild would cease to be a parish Guild, and immediately upon the adoption of the amendments retired.

WEATHER REPORT.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, D. C., 1 A. M., April 27, 1874.

Synopsis for the Past Twenty-four Hours.

The storm on Saturday night central over the Middle Atlantic coast has moved northeastward to Nova Scotia, preceded by northeasterly gales, rain, sleet and snow. Clear weather is now prevailing over the Southern, Middle and Southern portion of the Eastern States and the lake region. The winds have shifted to southerly and easterly from the west Gulf northward to the upper lakes and Minnesota, with cloudy weather and light rain from the latter to Missouri and Kansas. The Ohio river at Pittsburgh, Marietta, Cincinnati and Evansville, the Missouri at Yankton and Brunswick, the Mississippi at nearly all the stations, and the Red at Shreveport have risen, but the Ohio at Louisville and the Mississippi at St. Louis and New Orleans have fallen.

Probabilities for To-day.

Over New England, north to west winds, diminishing in force and generally clear weather will prevail.

For the Middle States and lower lake region, clear or partly cloudy weather, with winds shifting to northeast and southeast.

For the South Atlantic and Gulf States east of the Mississippi, generally clear weather and southerly to easterly winds.

From Tennessee and Missouri northward over Lake Erie and the upper lakes, increasing south to east winds, rising temperature, increasing cloudiness, with rain, gradually extending eastward over this area.

The Ohio river will rise and the Mississippi below St. Louis will remain nearly stationary.

LINCOLN.

The Name in England and America—Interesting Reminiscences.

[From the Springfield (Ill.) Journal.]

Mr. George B. Lincoln, of Brooklyn, N. Y., whom many of our readers will recognize as a fast friend and earnest admirer of the late President Lincoln, both before and after his election to the Presidency, while on a visit to the *Journal* office, a few days ago, related the results of some of his researches into the history of the Lincoln family, which will have a deep interest for many of our readers. It is proper to state that Mr. Lincoln, though not claiming blood relationship with his Illinois namesake, during frequent business visits to Illinois, early had his attention called to the Springfield statesman by the reputation for probity and ability he had acquired among his neighbors and acquaintances throughout the State. As early as 1856 he began to look upon Abraham Lincoln as the rising man of the time, and in his extensive business tours throughout the United States, did much to make the name of the latter familiar to the people, through the intelligent and influential class of business men with whom he was accustomed to meet. The intimacy between two men of the same name naturally ripened into a close and confidential friendship, which continued unbroken until the tragic death of one of them.

On Abraham Lincoln's election to the Presidency, he appointed his friend Geo. B. Lincoln, to the Postmastership of Brooklyn, a position which he held until Andrew Johnson entered upon his reactionary and ill-omened career, when he was required to make room for some partisan of the accidental President.

Being about to visit England, a few years ago, Mr. Lincoln decided to devote considerable attention to tracing up the history of the Lincoln family and name, which, being of English origin, he naturally supposed would be well known there. He was surprised, however, that while the name of "Lincoln" appeared one hundred and twenty-five times in the Directory of the city of Boston, it was to be found only twenty-five times in the Directory of the great city of London, with its three million of inhabitants, while none were to be found in York, Newcastle on Tyne, or Edinburgh. From a member of the firm of Lincoln & Bro., of Holburn, London, he obtained much aid in following up his researches. Family tradition among the English Lincolns states that in the early part of the sixteenth century, the Earl of Yarmouth, taking sides with the Puritans against a Catholic administration, had his title revoked, and, being turned adrift without name or fortune, assumed the name of Lincoln—which is believed to have been the origin of the name as that of a family in England. This is supported by the fact that upon the heraldry records at Lincoln's Inn Fields, no such name as Lincoln appears as that of a person, notwithstanding the county and town of that name are very ancient.

As early as 1635 there were three Lincolns in the town of Hingham, Massachusetts. In view of these facts, and the rarity of the name in England, as well as from the religious opinions of the Earl of Yarmouth, which cost him his title, it is believed that his descendants (or the most of them) early emigrated to Massachusetts, whence has descended the various branches of the Lincoln family throughout the United States. This view is sustained by the fact that many of the Lincolns of Massachusetts and Pennsylvania are still Quakers. There is evidence that Abraham Lincoln's family sprung from the latter.

If the above theory is true—and we have endeavored to separate fact from mere conjecture—the career of Abraham Lincoln affords a singular parallel with that of his English ancestor. The early English Lincoln sacrificed title and fortune for the sake of religious freedom; his later American namesake and descendant sacrificed his life in the establishment of individual and political freedom.

MCCLURE'S police bill, over which so much pother has been made, has suffered defeat. Now let the mourners wail.

THE National Penitentiary and Reformatory Congress will meet in St. Louis on the 13th of May, next. It promises to be a very important meeting.

SENATOR SCOTT has introduced a bill in the Senate ratifying and confirming the consolidation heretofore made of Southern Pacific Railroad, and Southern Trans-continental Railroad Company with the Texas and Pacific Railroad Company.

IT IS now thought that the worst of the famine in India is over. A report was recently presented in the British House of Lords to the effect that the crops for the coming season promise to be abundant, and stating that the present provisions against famine are ample.

JEVONS & Co., of Liverpool, warn the English ironmasters that unless they are alert and reduce the price of iron, the Belgians will beat them in their own market. They are offering iron in the continental market at $45 per ton, equal in grade to what is sold at Birmingham at $60.

THE Harrisburg *Telegraph* very properly denounces the bill that practically repeals the local option law, as turning every distillery and brewery into a drinking saloon. We are glad, however, to be assured, that while the bill did pass first reading, under exceptional circumstances, it will not pass the House even, much less the Senate.

TO-MORROW the veto message will be taken up in the Senate. It is understood that it will be freely discussed, and the fact that the Republican party is not responsible for it will be openly declared. The veto will not be put aside, however, as the constitutional majority cannot be commanded. A compromise measure will probably be developed.

THE English House of Parliament was recently the occasion of one of those little scenes that were once said to peculiarly belong to our American Congress. A motion was made to censure Gladstone, which was very vigorously and forcibly repelled by that gentleman, who indignantly left the House at the close of his speech. The motion was, very properly, negatived.

VERY naturally, ex Secretary McCulloch sees in the veto of the finance bill a prospect favorable to the restoration of his contraction policy. But the London *Times* candidly admits that "it is not denied that no other country in the world could do what America has hitherto done with its finances. It is the law of the American nature to expand and develop in every possible direction."

APRIL may be regarded as a month of storms. Clear, bright days have been the exception, and humid, raw, chilly, or positively stormy days the rule. The effect of this disagreeable weather on business, health, and all else that can be thought of as affected by weather, is unfavorable. Its influence on streets is deplorable. Mud, water and filth are everywhere prevalent. Indeed, the condition of the public, within and without, is exceedingly lacrymose.

THAT precious band of Democrats that performs an ornamental but not very useful part in the State Senate, have again refused to confirm the nominees for Judges, thus preventing the holding of Courts. Their reasons are well understood. They are waiting to be paid for their votes,—the price asked being a readjustment of the Philadelphia apportionment. We are quite confident they will not secure the benefits they ask, and will do wisely to act properly before it is too late.

THE LONG continued railroad battle, relative to freights from and to California, has been ended by means of an agreement reached between the Union Pacific and Chicago & Alton roads. The Chicago, Burlington & Quincy, Rock Island and Pacific, and Chicago & Northwestern roads formed a pool, to divide their earnings, and agreed to discriminate against the Union Pacific. For a time this road sent its freight by way of St. Louis, but by its arrangement with the Chicago & Alton road, has secured a short and advantageous line, and reduced rates, and broken up a very oppressive monopoly.

THE flood on the Mississippi is creating wide-spread suffering and want. Hundreds of poor families have lost their all, and are absolutely dependent on public charity. Eastern cities have promptly responded to calls for aid, as urgent and piteous as those which came from Chicago as the result of its great fire. We trust the proclamation of Mayor Blackmore, urging our citizens to meet and provide for sending relief, will be as nobly responded to as was that on the occasion of the Chicago fire. Those terrible Mississippi floods work as widespread devastation as the most terrible fires; and the sufferers are as fully objects of sympathy.

THE report circulated, to the effect that Representative Hays acted inconsistently in voting for the reference of the bill to license the manufacture and sale of liquor in local option counties, and then against the bill itself, does that gentleman injustice. He favored a direct vote on the bill, and hence voted against all references whatever. As to the bill itself, he believed it unconstitutional, and for this reason voted against it. His votes had no reference to the intrinsic merits of liquor and temperance,—but were governed solely by two considerations,—the importance of bringing the measure to a direct issue, and the propriety of defeating it, on constitutional grounds.

THE New York *Tribune* accepts thankfully the veto, attributes its composition to Bancroft Davis, and its signature, merely, to the President, but objects to several of its propositions. "The proposition to increase the revenues so as to pay current expenses, provide for the Sinking Fund, and retain a heavy gold surplus in the Treasury, will provoke warm discussion. The country will hardly stand direct taxation, it is doubtful if additions can safely be made to the tariff, and the business of hoarding gold in the Treasury, save with a direct view to the early resumption of specie payments, would work great derangement of mercantile interests." All of which are true.

ABOUT the last work performed by the Legislature, during last week's session, was that of passing the judicial salary bill,—which fixes the salaries of the Judges of our Courts at $5,000,—a reduction of $1,000 from the price previously paid. The bill pending in the Legislature fixing the county officers' salaries, allows the Sheriff of this county $9,000, the Prothonotary $6,000, and several other officers, $5,000 each. To these we have no special objection to make—but the contrast is certainly striking. We have been of the opinion, and it is confirmed by the contrast thus shown, that the Judges should be more liberally compensated. We have given our reasons previously; we wish now merely to reaffirm our conclusion.

THE Philadelphia *Press*, always wise and sensible in its method of treating tariff and finance questions, says of the President's proposition to reach resumption by increased taxation and the hoarding of gold, that it "can never be reached by such a road. Before the people bear additional taxes there must be a revival of industries, but this revival cannot well take place without an increase of the currency, particularly while a prospective panic as the effect of a forthcoming attempt at resumption stares everybody in the face. It is reasonably certain that no new tax burdens will be imposed by the present Congress upon our already suffering people. The most that we can hope for is that the currency may be left as at present, until the great body of the people everywhere shall speak through the elections in such potent tones as to compel the adoption of a more liberal and rational financial policy." One of our afternoon cotemporaries, that is usually as crude in its ideas as it is in its rhetoric, assumes that the veto will strengthen and solidify the Republican party. It will, if the seat of strength is in New York and New England. But if it is at the West and South, the issue will be different. There they say "the party is in mourning because of the veto."

A YOUNG DEMON.

Frightful Record of Jesse Pomeroy, of South Boston—His Last Act the Confession of a Murder.

A Boston dispatch to the New York *Times* says: The story of the child-murder is one of the most extraordinary of the period. The boy, Jesse Pomeroy, suspected from the first as the murderer, to-day confessed, and is now awaiting examination. Before his confession a chain of convincing circumstantial evidence had been formed against him. When the boy was taken at the house of his mother, a respectable dress-maker in South Boston, a knife was found on his person, spotted with blood. A spot of blood marked the breast of the undershirt, and his boots were covered with mud of that peculiar hue and consistence that belong alone to the soil of marsh lands. Early this morning officers visited the scene of the murder, a spot on the marsh land jutting into Dorchester Bay, midway between Washington village and Savin Hill, half a mile from McKay's wharf. From the wharf to the spot where the body was found were two sets of footprints in the marsh mud. Of both these plaster casts were made, and they displayed peculiarities which afterwards proved almost conclusively that the right person had been arrested for the crime. A detail of policemen kept off a curious crowd, so that the tracks were not obliterated. The tracks showed plainly that Pomeroy jumped off the wharf into the soft clay, and then took his little victim down, lending assistance by a swing of his arms. The boots of the murdered boy exactly fitted the smaller print, and corresponded precisely with the plaster casts taken off the prints. At noon to-day Detective Woods took the boy to the undertaker's where the body lay, and placed the murderer face to face with his victim. Pomeroy turned away his head. "Do you know that little boy?" "Yes, sir." "Did you kill him?" "I suppose I did." "Well, how did you get the blood off the knife? Did you wash it off?" "No, sir; I stuck it in the mud." For the first time since his arrest the boy showed some signs of contrition, and expressed the desire that his mother should not be informed of his act. He is now in Charles street jail, to await the action of the Coroner's jury.

The record of this extraordinary boy is a terrible one. Early in 1872 there was great excitement in Chelsea caused by the horrible torture of a number of little fellows by this boy, who was not discovered until a hundred or more boys had been arrested, and he was, after trial, sent to the Reform School, at Westborough, for the remainder of his minority. His victims were many. One was a son of Mr. Paine, of Chelsea, who was, about Christmas, 1871, taken by Pomeroy to Powder Horn Hill, stripped naked, tied to a beam, beaten with a rope, and left helpless. Tracy Hayded, another boy, was, on February 21, 1872, stripped, tied up, and beaten with a board and ropes, by which some of his teeth were knocked out, the bridge of his nose broken, and other more serious injuries inflicted. Johnny Balch was enticed to Powder Horn Hill soon after July 4, 1871, stripped, gagged, tied to a beam; beaten and then taken to a salt-water creek and washed. Robert Gould, in September of the same year, was taken from South Boston to the vicinity of the Hartford and Erie Railroad, stripped, tied to a telegraph pole, whipped and cut with a knife in the head. Harry Austin, in August of the same year, was, at South Boston, stripped, beaten, and cut in the back and groin with a knife. George Pratt, about the same time, was enticed into the cabin of a yacht at South Boston, stripped and punctured with pins and needles in different parts of his body and left insensible and bleeding. Joseph Kennedy was about the same time taken to a place on the Old Colony Road, in South Boston, and maltreated in about the same manner that the Gould boy had been. These boys were all of tender age, from seven to eleven years old.

When arraigned Pomeroy confessed that he was guilty, and assigned as the only reason that he could not help it. Considerable inquiry has been made as to how Pomeroy, after his conviction of so many heinous offences, was pardoned out of the Reform School, after being there only a year and five months. The explanation is as follows: When boys are sent to the Reform School they are sent for their minority, unless previously discharged. If, after a considerable stay, their behavior has been exemplary, and they give promise of reform and future good behavior, and if they have a good home to which their parents are anxious to have them returned, they are often pardoned on probation. This was the case with Pomeroy. His mother petitioned for his being put on probation and allowed to come here, and, as his record while in the school was good, this was granted on Feb. 6, 1874.

THE INQUEST.

An inquest was held on the remains of the murdered boy on Friday afternoon, and the first witness put upon the stand was the accused, who, upon beginning his testimony, did not evince any emotion of fear of the charge of which he was accused. He gave, in a clear tone of voice, a full account of his movements from six o'clock on Wednesday morning until the hour of Wednesday night when he was arrested; gave a detailed and minute description of his movements throughout the day, which, if true, will undoubtedly stand greatly in his favor, and emphatically denied ever being near the place where the dead child was found, and also denied any confession made to the detectives. After a long examination of the prisoner he was remanded to the custody of the police until the conclusion of the Coroner's inquest. The evidence for the prosecution will undoubtedly be circumstantial, which will be brought out on Monday, until which time the inquest has been adjourned. Although there are many who believe this boy guilty, there seems now to have arisen some sympathy for him, from the fact that a little boy, who had been enticed away some weeks ago, but found by the police, has seen the prisoner and says he is not the boy who took him off.

Pomeroy was fourteen years old last November, is quite large for his age, weighing about 110 pounds, not very prepossessing in appearance, and has a rugged and roguish look.

ITEMS OF INTEREST.

WM. M. TWEED was remanded on Saturday to hospital duty in the Penitentiary, on Blackwell's Island, under a resolution of the Board of Management.

THE most thoroughly burned-out-of-house-and-home man in the United States is Charles Williams, of Portland, Maine. Seven times during the past year has his residence been consumed.

GERMAN colonists in Southern Russia are emigrating in large numbers to the States of Iowa and Nebaska. It is said that the exodus is greater than that of the Tartars from the Crimea in 1859 and 1861.

THE New York Butter and Cheese Exchange has protested against the new article called oleomargarine, being called butter, and sold as such. The Exchange says the future of the American butter trade demands that the two be kept separate.

THE benefit to the poor of Mme. de MacMahon's soup kitchens is much limited in many quarters of Paris, by the cures, to whom the patronage falls, and who will only issue tickets for soup to persons producing a certificate that they regularly attend mass.

ABOUT fifty persons, including one woman, attended the meeting of the Cremation Society, of New York, on Friday evening, and listened to the reading of the report of the Committee on Organization, recommending the organization of a stock company as the most feasible means of obtaining the desired end.

THERE is a cotton pool composed of Southern cotton buyers, with headquarters at Augusta, Ga. Each member putting up $5 in the pool has a right to make an estimate of the cotton crop for that year, the nearest entitled to all the money. The pool for 1873-4 has been closed, and the lowest estimate made is 3,918,203 bales, and the highest 4,408,234; while the average is 4,178,382. The crop is to be decided in September.

JAMES PARTON, recently elected President of the Liberal Club of New York, took the chair last Friday evening at a session of that body, and made a speech, in which he said: "We are on the verge, if not in the midst, of a general reaction from what are usually called liberal principles—government by the people, for the people, the equal brotherhood of men, and the right of each man and woman to share in the practical guidance of public affairs. In proof of this he instanced Germany, where the victories of the late war have brought to the front the Conservative forces and have pushed back out of sight the men, and their dreams of twenty years ago; England, with Disraeli and the Conservative party in power, and France with MacMahon for President. In the United States this Conservative fraction is very strong, and will not delay to manifest itself."

PERSONAL.

PRINCE BISMARCK'S disease is neuralgia in the nerves of the leg.

ST. LOUIS papers announce that General Frank P. Blair has united himself with the Presbyterian Church.

MR. JOHN HOLKER, who was lately appointed Solicitor General of Great Britain, has been re-elected to Parliament from Preston.

IF the various wives of John Irwin, of Virginia, should gather around him there would be a group of six, all married within the last two years.

PRINCE GORTSCHAKOFF, General Schouvaloff, and the Grand Duke Alexis, Vladimir and Constantine will accompany the Czar on his visit to England.

MRS. JANE G. SWISSHELM records herself in opposition to inflation. This is a formidable accession to the ranks of the specie payment party. Mr. Swisshelm was always willing to testify that his wife was a "tower of strength."—*Brooklyn Argus.*

LORD WALTER CAMPBELL, the third son of the Duke of Argyle, and so well known and liked in New York society since his residence there for one or two years in mercantile business, was married on Tuesday, the 14th inst., at Camden Hill, London, to Miss Milns, daughter of a wealthy manufacturer near Glasgow.

VICE PRESIDENT WILSON was in New York city a short time last Friday evening, on his way from Boston to Washington. On his return soon to Boston, he and Mr. G. W. Bird leave on a Southern and Western trip, wich will probably extend to California, and will include a visit to the Hot Springs in Arkansas.

FOREIGN NOTES.

THE new steamship Faraday has begun to load the new Atlantic cable.

HUGH McCULLOCH, in a communication to the London *Times*, praises President Grant's veto of the finance bill, and recommends a return to the policy of contraction which he pursued when Secretary of the Treasury.

ADVICES have been received from Port Au Prince to the 18th inst. General Dominique was expected hourly with troops from the South, and trouble was feared. Foreigners were sending their valuables to the different consular residences for safety, and numbers of them were leaving the island.

THE London *Times* editorially says: "To British eyes the apparently interminable inflation of currency is a hazardous proceeding, fraught with peril to prosperity and even to the unity of the American commonwealth. But it is not denied that no other country in the world could do what America has hitherto done with her finances. It is the law of the American nature to expand and develop in every possible direction."

ORDINANCES.

(No. 28.)

AN ORDINANCE—Providing for the completion of the new Water Works.

SECTION 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the erection and construction of the new Water Works of the City of Pittsburgh, shall hereafter be in charge of the Water Committee.

SEC. 2. Said Committee shall, as soon as practicable after their appointment, meet and organize, by the election of one of their number as Chairman, and shall, as soon as possible after their organization, examine the work to be done, and report to Councils the number and character of the officers and assistants required for the proper prosecution of the work, including an officer to be called General Manager, and the amount of salaries to be paid to each; and upon approval of said report by Councils, said Committee shall be authorized to employ such officers and assistants, at salaries not exceeding the amounts specified by Councils, and no officers or assistants shall be employed by said Committee, unless the approval of Councils shall be given thereto.

SEC. 3. Said General Manager shall have, subject to the authority and direction of the Committee, the general supervision and control of the erection and extension of said new Water Works, and of all the other officers and assistants employed thereon, and shall report to said Committee at such times as shall be fixed by it, and shall perform such other duties as shall be required of him by the Committee.

SEC. 4. All officers and assistants employed by said Committee shall give bonds, with security to be approved by said Committee, in such amounts as said Committee may determine, and shall be sworn to faithfully and honestly discharge the duties of their appointment. They shall be subject to removal by said Committee, who shall be authorized to make rules and regulations as to the duties and government of all persons so employed by them.

SEC. 5. Said Committee shall have charge and supervision of the erection and construction of the Water Works, in accordance with the general plan adopted by Councils on the 10th day of July, 1871, subject to such modifications as have heretofore been, or may hereafter be adopted by Councils.

SEC. 6. Said Committee shall be authorized to select such additional sites for water works, engine-houses, basins, reservoirs, conduits, and pipes, as to them may seem necessary, and to negotiate with the owners of any of said property for the purchase or use of the same, subject to the approval of Councils. Whenever said Committee shall negotiate a contract for the purchase or use of any land for the purpose of said Water Works, they shall report the same to Councils, and if approved by them, said Committee shall perfect the same in the name and on behalf of the City of Pittsburgh.

SEC. 7. If, in any case, said Committee shall be unable to agree with the owner of any property which they may desire to purchase or use for said Water Works, they shall report to Councils a description of the property which they desire to take, and the purpose for which the same is to be used, whereupon the Councils may, if they deem proper, order the same to be taken and condemned under the provisions of "An Act to provide for the extension of the Water Works of the City of Pittsburgh," approved the 15th day of March, A. D. 1871.

SEC. 8. Said Committee shall cause to be prepared such additional detailed plans for the erection and construction of buildings, basins, reservoirs, conduits, machinery, and all other things necessary for the complete construction and operation of said Water Works in accordance with the general plan aforesaid, and shall make and enter into contracts for the work and materials therefor, including all pipes to be laid in extension of the present works, in accordance with said plan, but not including repairs to the works as they now exist; *Provided*, That all contracts shall be made with the lowest and best bidder, upon sealed proposals in writing, after advertisement in papers authorized to do the city printing and such other papers as said Committee shall think advisable, for at least ten days before the time fixed for receiving the same, and all contracts for work or materials shall be upon terms of payment in cash; *Provided further*, That no contract shall be signed, or executed, or binding, until the same shall have been first duly approved by Councils.

SEC. 9. No officer, assistant or employe shall be directly or indirectly interested in any contract for lands, work or materials for said Water Works. And in all contracts it shall be expressly stipulated that if any of the said parties shall be so interested, the same shall be null and void, and that no suit or suits shall be maintained against the city of Pittsburgh for, or on account of, anything which may be done under or in pursuance thereof, and that if any money shall be paid by said city on account thereof, the same may be recovered from the party receiving the same in an action or actions in the name of said city.

SEC. 10. All contracts shall be made in the name of the City of Pittsburgh, and shall be signed by said Committee, or a majority of them, on behalf of the city, and when necessary, the Mayor of the city shall attach the corporate seal of the city thereto.

SEC. 11. All pay rolls shall be verified by affidavit of the person under whose charge the work was done, and certified to as correct by the proper officer, before the same shall be approved by the Committee.

SEC. 12. Said Committee shall certify to the Controller, in writing, all claims approved and allowed by them, who shall certify warrants for the amount thereof, payable from the Water Extension Fund, if there is at the time sufficient money in said fund undisposed of, which warrant, when signed by the Mayor, shall be paid by the City Treasurer from the money in said fund; *Provided*, that the Controller shall not certify a warrant in payment of any claim, unless the same is accompanied by an affidavit of said claimant that the amount thereof is justly due, and that no officer, or other employe is directly or indirectly interested therein.

SEC. 13. Said Committee shall keep, or cause to be kept, full and perfect minutes of all their proceedings, and all other books and accounts necessary to a full understanding of the business transacted by them, which shall at all times during business hours, be kept open for the inspection of the City Controller, Finance Committee of Councils, and any other committee duly appointed by Councils for that purpose, and they shall make to Councils a detailed quarterly report of all their proceedings and contracts entered into, and all other matters necessary for a full understanding of the business transacted by them.

SEC. 14. The acts of a majority of said Committee shall avail as the acts of all.

SEC. 15. That an ordinance entitled "An Ordinance conferring upon the Water Committee the powers and requiring the performance by them of the duties of the Water Commission," ordained 29th day of December, A. D. 1873, and an Ordinance entitled "An Ordinance for the erection of a new Water Works," ordained the — day of —, A. D. —, and all ordinances in conflict with this ordinance, be and are hereby repealed; *Provided*, however, that such repeal shall not impair or in any manner affect any contracts heretofore entered into under or by virtue of said Ordinances.

SEC. 16. That the Committee shall report at least monthly the progress of the work.

Ordained and enacted into a law, in Councils, this 30th day of March, A. D. 1874.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, April 27, 1874.

The very heavy storm that prevailed on Saturday reduced the volume of business of all kinds, and limited the activity of the money dealers. Beyond the usual demand for Saturday's necessities, there was no special application at the banks. The general volume of trade was limited, and a quiet condition maintained. The effect of the veto has been discussed, and a more cheerful feeling is observable, although the opinion seems to be prevalent that if the hitch between the President and Congress continues, business must inevitably suffer. The business of a free-banking law of some kind is now expected by most bankers. Many of those who have been strongly opposed to such a step favor it under the present circumstances. The National Banks feel that it would relieve them of the charges of monopoly so widely circulated against them, and yet in no way interfere with their business. Under such a system, they argue, the people could have all the currency they would provide for, and if it were properly secured, like the present bank circulation, by Government bonds, no depreciation could result. There would be an almost unanimous demand of the national banks that circulation should be given to the amount of the face of the bonds, instead of 90 per cent. as now.

We hear of some improvement in prices, and increased activity of sales of real estate. Some property which was unsaleable four months since, was disposed of last week at an advance of 20 per cent. over the asking price four months before.

The result of the Sanborn contract investigation contemplates an entire repeal of the law under which that gentleman's disgraceful operations were carried on. Kelsey, the author of the law, the *Journal of Commerce* says, is to be severely censured. Mr. Boutwell is severely left alone by the report, being dismissed with the unsatisfactory statement that he failed to appear. Sanborn is credited with the greatest of human skill for organizing, and capacity for administering, a very mean business. It is in evidence that all his work could and should have been done by the regular revenue officers. Commissioner Douglass is the only man who figured in the business and is left without official or moral taint in the matter. Secretary Richardson is subject to severe censure.

The coupons of May 1 of the Lamoille Valley, Montpelier and St. Johnsbury and Essex county Railroad Companies, composing the Vermont division of the Portland and Ogdensburg Railroad line, will be paid at maturity, in gold, at the First National Bank, Boston.

A special meeting of the stockholders of the California and Texas Railway Construction Company is called for the 6th of May, at the office of the company in this city, to consider a plan to be submitted by the Directors for a reorganization of the company.

Interest upon loans of the United States (coupon and registerred), due May 1, will be paid without rebate on and after to-morrow, at the office of the U. S. Assistant Treasurer, in this city.

The coupons due May 1, on the bonds of the Denver and Rio Grande Railway Company, will be paid on that day at New York.

A Bank of England note is a legal tender for all sums above £5, except at the Bank.

The veto message says: "When the *premium* on gold reaches a sufficiently low point," etc. Now, most readers will understand what the President means, but the expression being found in a state paper, it should be literally correct, and it is not correct to say that there is any premium on gold as compared with paper currency. The expression is common and tolerable in a newspaper paragraph, but should not find authoritative sanction in an official paper. What the President doubtless means is, when the *discount* on currency approaches more nearly to gold, then, etc. Gold is the standard measure of values. Currency is the measure of prices of all commodities in our domestic markets.—*Phila. Ledger.*

NEW YORK, April 25, 1874.

Money closed easy at 3@4 per cent. on call. Prime business notes are in demand and discounted at 6@7 per cent. The supply of prime paper is small, owing to the dullness of trade. Foreign exchange is quiet, but steady, at 485 for prime bankers sixty days and 489 for demand. Gold closed at 112⅝, after selling at 112½ and 112⅞. The rates paid for carrying ranged from 6 per cent to flat, closing at 3 per cent. The clearances were $58,000,000. The Assistant Treasurer disbursed during the week over $1,000,000, and received $2,000,000 for customs. The payments to-day were $750,000, chiefly on account of May coupons. The specie shipments for the week were $423,236, principally silver bars. The imports in the same time were: Dry goods, $1,440,321, and merchandise, $5,388,553. Governments were strong. Considerable was done. State bonds were quiet and nominal. The stock market opened firm, but remained so only a short time, Northwest being exceptionally weak. Prices subsequently picked up, and at the second board were steady, but again went off, gathering strength, however, later, and closed with a steady market for speculative shares. The sales to-day were nearly 200,000 shares, of which 61,000 were Western Union, 33,000 Union Pacific, 17,000 Pacific Mail, 26,000 Lake Shore, and 17,000 Northwest.

Condition of the Markets at Home and Abroad.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, April 25, 1874.

Trade in general merchandise has been moderately active during the past week, but the markets present but little that is really important. The grain trade is rather better, and with an increased demand and reduced stocks prices are higher. The most important feature to note in connection with the grocery trade is the advance of two cents ℔ lb in roasted Coffee. There has been a further advance in the hog product and there is a continued steady demand, especially for Hams. Flour is firmer and an early advance is not improbable. We can report a steady demand for all kinds of country produce, and with the exception of Butter, which is still on the back track, prices are pretty well sustained.

APPLES—There is a moderate jobbing demand, but no change in rates: $4 to 6 ℔ brl, as to quality.

APPLE BUTTER—Sales at 70@80 cts per gal.

BEANS—The market is still considerably overstocked, but prices remain as last quoted: $2@2.25 ℔ bushel, the outside figure for prime navies.

BUTTER—The market continues to drag, and with holders nearly all anxious to realize and stocks accumulating, prices are weak and drooping: we now quote at 30@33 for prime to choice roll.

CHEESE—Sales of new Ohio Dairy at 12½@13½, and new Ohio Factory at 16@17; prime old New York, 19.

COUNTRY BACON—Country Shoulders, 7½@8; Clear Sides, 9@9½c; Hams, 9½@10c. Country Lard, 9@9½.

CRANBERRIES—Quotable at from $15@18 ℔ brl, as to quality and condition.

DRIED FRUIT—Apples, 9@10; sliced, 12@13, with a very fair demand. Peaches, 10@12 for mixed: 14@15 for halves, and 18@20 for peeled.

EGGS—The market is steady, and we can report regular sales at 17@18.

FLOUR—Was reported off ¼ in New York and Chicago yesterday, but our market is steady at unchanged prices. We continue to quote spring wheat flours at $6.75@7.25; red winters, $7.75@8.25; white, $8@10. Rye Flour, $5.75.

GROCERIES—Coffee is quoted rather firmer in the seaboard markets, but business continues quiet as the trade are holding back for the Rio telegram, now overdue. If it should be favorable to holders, an immediate advance and considerable activity will no doubt be the result, but if on the contrary, it should be unfavorable, a further shrinkage in prices is considered almost certain. Sugars continue moderately active but unchanged, and the same is true of Molasses and Syrups.

COFFEE.—Choice Rio, 30; prime, 29; good, 28, fair, 27½. Roasted, 29 for 1 pound packages; loose, ½c less.

SUGARS.—Patent Cut Loaf, 12¾; Crushed, Powdered and Granulated, 11¾c; Standard A, 10¾; B, 10; Ex. C, 9¾; Circle C, 9¾; Franklin Extra C, 9¾; Franklin No. 2 Extra C, 9; American Extra C, 9¼; Yellow Sugars, 8 to 9, as to quality.

SYRUPS—Extra White Drips, 70c; Sugar Drips, 80c; Amber, 60@65; lower grades, 35@40, as to quality.

MOLASSES—Strictly prime new crop New Orleans, 80c: fair to prime old, 70@75.

RICE—Choice Carolina, 8¾; Patna, 8½c; Rangoon, 8@8¼c.

GRAIN—The arrivals continue meagre and with an average demand and diminished stocks; prices are firm and advancing. Winter Wheat is still quotable at $1.57@1.63 for red and 7@10c additional for White, according to quality. The Oat market is reported firm at the recent advance, and some operators are predicting still higher rates. Shelled Corn is in light supply and it may be quoted at 88@93. Ear Corn is quiet and nominally unchanged, 75@77. There is some inquiry for Rye and little or none offering: in the absence of sales we continue to quote at $1.05@1.07. No movement in Barley.

HAY—The market is becoming stronger, especially for good stock which is in light supply: baled is still quotable at $18@23, according to quality and condition.

HOMINY—$5 ℔ brl. to the trade and $5.50 in a jobbing way.

POTATOES—The arrivals continue to keep up pretty well but with a steady demand, there has been no accumulation and prices are fully sustained; we continue to quote at $1.15@1.25 ℔ bushel by the carload and $1.25@1.35 out of store. Early Rose, $3.75@4 ℔ brl.

POULTRY—Dressed Chickens, 13@14c per lb; live, 75 to 85c per pair.

PROVISIONS—Hams—Extra Sugar Cured, 13 ℔ lb: canvassed, 13¾; Shoulders—Extra Sugar Cured, 9¾; canvassed, 9¾; Breakfast Bacon—Sugar Cured, 12; canvassed, 12½; Dried Beef—Extra Sugar Cured, 16½; canvassed, 17. Beef Tongues—Sugar Cured $7.50 ℔ dozen; Bacon—Shoulders, 8¾c ℔ lb.; Rib Sides, 10; Short Rib Sides, 10¼; Clear Rib Sides, 11 Mess Pork, ℔ brl., $18.50; Lard—Prime Leaf, in tierces, 11¼; half brls, 11½; buckets, 12¼; in 3 lb caddies, 13¼; in 5 lb do, 13¼; in 3 lb pails, 14¾; in 5 lb do, 14½; in 6 lb do, 14. Ham Sausage, 10.

RAGS—Good mixed, 3cts.

SEEDS—Clover Seed is in light supply, but unchanged at $6 75 to $7 ℔ bushel. Timothy Seed continues dull at $3 to 3.25. Flax Seed, $2.25 to $2.30.

TALLOW—Sales at 6¾@7.

PITTSBURGH LIVE STOCK MARKET.

CENTRAL STOCK YARDS, EAST LIBERTY, SATURDAY, April 25, 1874.

Following were the arrivals of the different kinds of stock for the week, and to afford a comparison we append those of the week preceding also:

	This week.	Last week.
Cattle	517 cars	480 cars
Hogs	219 "	140 "
Sheep	74 "	68 "
Total	810 "	678 "

FREIGHTS.

	Cattle.	Hogs.	Sheep.
New York	$40 ℔ car	$44 ℔ car	$36 ℔ car
Philadelphia	35 "	38 50 "	31 50 "
Baltimore	35 "	38 50 "	31 50 "

CATTLE.

As will be seen, the arrivals were considerably larger than those of the preceding week, but the excess consisted almost entirely of through stock; of market cattle we doubt whether the supply was any larger than that of last week, although it was fully equal to the demand. There was perhaps an average attendance of buyers, but they took hold sparingly, hence sellers found it difficult to sustain prices, and the market, so far as the selling interest was concerned, was an unsatisfactory one, which is very evident from the fact that there was a very general complaint among sellers. There were several lots of Chicago cattle on sale, and they were mostly closed out, but we understand they made no money for their owners—it is very evident that there is no margin in running stock from Chicago to this market, as cattle, especially good shipping steers, are bringing almost as much there, to say nothing about freights and shrinkage, as can be realized here, and this accounts for the fact that a number of dealers have been forced to ship on further east—the prices prevailing here would not let them out. We failed to obtain a report of the sales for the week, but we do not think they would exceed 60 or 70 cars, the bulk of which were purchased for shipment to Philadelphia. Not only is trade dull, but there is not much prospect of an early improvement; eastern men claim that cattle are too high here for their markets, whereas, western men allege that there is no margin at present rates, and, therefore, that any concessions would result in an actual loss.

QUOTATIONS.

Extra 1,500 steers	6.65@6.75
Extra 1,400 steers	6.40@6.50
Good 1,300@1,250 steers	6.12½@6.25
Good, 1,100@1,150 lbs	5.75@6.00
Fair, 1,000@1,050 steers	5.25@5.50
Bulls, as to quality	4.00@5.00
Mixed rough stock	3.50@4.50

SHEEP.

The receipts, although slightly in excess of those of last week, were not as large as expected, and it may be attributed to the cold wet weather which has retarded shearing, and consequently kept down the arrivals. As compared with last week, prices may be quoted up fully 25 cents per cwt, and even at the advance, the supply, especially of prime stock, was scarcely equal to the demand. Extra clipped, 95@100 lbs 6¾@6⅞; 85@90 lbs, 5¾@6; 75@80 lbs, 5¼@5½. Extra wooled sheep, 95@100 lbs, 8¼@8½; 85@90 lbs 7¼@7½; 75@80 lbs, 6½@6⅞.

HOGS.

The market continues fairly active, but since the date of our last report there has been no quotable change in prices; prime heavy hogs are most sought after, and are bringing better rates relatively than the commoner grades. Philadelphia hogs may be quoted at 6 50@6.65; good mixed, 6@6¼. Yorkers at 5½@5¾.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, April 25, 1874.

The Crude market, as compared with yesterday, has undergone but little change; quoted at 4½@5 cents ℔ gallon here and $1.95@2 ℔ brl at Parker, according to pipe line. Private and reliable advices from the producing regions report that the 'shutting down' project has been pretty generally adhered to thus far by those who have gone into it, and that the prospects are favorable for its success; however, some operators refused to have anything to do with the movement, regarding it as an experiment, and, besides, they wanted to be free to manage their business in their own time and way. The project is being pushed forward most vigorously by those who are holding large quantities of oil and we do not wonder at it, but it does not seem exactly fair to ask those who are putting down wells but who have no oil to stop drilling in order to assist the former to realize an increased price for their product. As will be remembered, by those who have given the matter any attention, several similar attempts have been made within the past few years and they all turned out failures, and while the prospects are regarded as being more favorable for the success of the present one than those which preceded it, its success is by no means certain; there are a great many conflicting interests, and it is almost impossible to reconcile them all.

The Refined market has ruled somewhat firmer during the past week in sympathy with Crude, but business has been comparatively quiet; from what we can learn, exporters have bought sparingly, but the advance in prices may have had something to do with it. The indications, however, are that there will be a very fair business during the balance of the season. Quotations may be fairly given at 12¾@13 cents on cars here for April or early May, and 15¼ delivered in Philadelphia.

The Barrel market has been unsettled and irregular all week; sales were made in the early part of the week at $1.70 for countries and $1.75 for city make, but, subsequently, at $1.65 for the former and $1.70 for the latter.

IRON MARKETS.

NEW YORK, April 24—American Pig.—There is no improvement to notice in the Iron market. In all departments the same uniform dull ess prevails. The consumption is not at present great enough to take even the quantity of Iron now produced, and as a consequence many brands of Pig Iron from distant parts of this State and of Pennsylvania are now for the first time, being pressed upon this market, and to induce sales, great concessions are offered. Some of the strictly prime makes of Lehigh Iron are held firm at $35 for No 1 Foundry, $33 for No 2 Foundry and $31 for Gray Forge, but these prices may now be considered exceptional. They can be shaded on most brands, and in many cases the price is only governed by the necessities of the sellers. Large sales are not common, but of course, there are a considerable number of small sales constantly making. We note sales of 1,500 tons Gray Forge on private terms, and 500 tons at $27.50. We quote: Foundry No 1, $34@35; Foundry No 2, $31@33; Gray Forge, $27@31. These prices are for the best brands. Bar—We quote Bars of Eastern make at 3 1@3 3c at mill. There does not seem to be any improvement in demand. Rails—Rails remain without change. We quote Foreign $64@66, gold, and American, $58@60, currency, at works. Old Rails—We quote T's $40. Double Heads are not offering. We do not hear of any considerable transactions. We quote Wrought Scrap from yard at $40@42.50 with little doing. We note a sale of 350 tons on private terms—Iron Age.

PHILADELPHIA.—There is a slightly better feeling in the Iron market, with not, however, any increase to note in the volume of business. A series of sensational telegrams and statements from here and the interior, calculated to unduly depress the market and injure firms named, were issued at the close of the last period under review. The effect of these speedily passed off upon an investigation of the misstatements. The general impression seems to be that the lowest point of the year in prices has been reached, and that the better state of things noted West will soon be felt here. The universal reply to a pretty close canvass of the trade has been of an improved feeling, a little better inquiry and a better prospect. Forge Irons are comparatively scarce, and with any demand would advance. There is more doing in Old Rails and some inquiry for New Rails. Prices are without change, viz: Pig Iron—No 1 Foundry, $35; No 2, $33; Gray Forge, $30; Bars—3.2 to 3.3 cts per lb. Rails—$80, at works. Old Rails—$41 to $42. Scrap—$38 to $40, for No 1 Wrought.

New York Wool Market.

NEW YORK, April 25—Business continues quiet, although today there is a much better tone and more confidence generally, the action of the President on the financial questions favorably affecting the market. Few buyers have been in the city, and what trade is being done is only for the immediate requirements of manufacturers, and no speculative feeling whatever prevails. Besides they are now unwilling to buy in large quantities, as the Spring clip is so near at hand, and the dry goods market is as yet only moderately encouraging. Prices, however, are steady, and stocks continue light. The latest advices from San Francisco state that the new Spring Wools from the Southern part of the State are arriving freely, but that prices are held decidedly above the views of Eastern buyers. The latest figures quoted are 18@20c for Ordinary, 22@23 for Wools slightly burry, long staple and in good condition, and 23@25c for Choice. The transactions since our report of Tuesday last comprise the following sales: eight thousand lb Ohio Fleece at 53½c, two thousand do Medium Wisconsin at 53½c, five thousand do Wisconsin X and above at 51c, five thousand do Unwashed Indiana at 30c, one thousand do Georgia at 38c, 2,500 do No 2 Fleece at 47c, two thousand do washed Medium Fleeces at 47c, two thousand do medium Unwashed at 40c, four thousand do Noils on private terms, three thousand do Black Pulled on private terms, 150 bags combing pulled on private terms, ten thousand lb Super Pulled at 47½, five thousand do Mestiza Pulled at 38c one thousand two hundred do Low Scoured at 60c, two thousand do do at 50c, ten thousand do California Spring on private terms, 18 bales burry Spring at 30¾, twenty-three thousand lb California Fall at 25, twenty five thousand do do at 24, five thousand do do at 23c, three thousand do do Burry at 20, 20 bales Fall at 26¼, 10 bales do do at 25, 85 bales do on private terms, 30 bales do B. and S. on private terms, 65 bales Fall and Lambs on private terms, 50 bales California Lambs on private terms, 50 do Choice Oregon on private terms, 70 do Oregon on private terms, 160 bales do at 42½, 27 bales do at 38¼, 6 bales Oregon Mixed Wools at 30, six thousand lb Texas at 33@37, six thousand do do at 32, ten thousand do do Canada Pulled on private terms, 50 bales Cape at 36, 60 bales Unwashed Greek on private terms, ten thousand lb East India on private terms, and five thousand do do at 40. A sale of 300 bales Creolla unwashed, now landing, was also rumored at about 17, but upon careful investigation we find no such sale was consummated.

Broom Corn.

CHICAGO, April 24—The order trade though light, is steady, if not increasing. Manufacturers thus far are buying small quantities only, but the prospect for the broom corn trade appears to be brightening, although dealers are not disposed to be too sanguine. With an upward demand for brooms a better trade in corn would necessarily follow. A prominent dealer, who has just returned from a trip through the broom corn country along the Illinois Central Railroad, states that there will probably be more broom corn planted in that section than last year, also that there is very little corn there now. Following are the prices: Choice hurl, 8@8½c; do extra do 9c; corn that will work itself into a choice hurl broom, 7½@8c; for good do, 6@7c, good to choice stalk braid, 7½c; inferior brush, 4@5½c.

Chicago Lumber Market.

CHICAGO, April 24.—The largest lumber fleet of the season arrived at the sale docks to-day. Probably not far from forty cargoes were on sale, composed largely of common lumber. The market was dull and weak, under the heavy receipts, and probably less than a dozen sales were made during the day. Several local and a few country buyers were present, but they were not disposed to operate very freely unless sellers would make concessions. On the other hand, sellers were holding firm at previous prices, and report that no reduction has yet been made on the standard grades. A cargo of lath brought $2.25, and mill run boards and strips from Ludington, $14.25. Common boards are quotable at $11.00@13.00; mill run do, $14.00@15.00; joists and scantling, $10.25@10.50; shingles, $3.00.—Tribune.

Wool.

BOSTON, April 25.—There has been fair business in wool during the past week, though buyers purchase cautiously and only as wanted, with no demand for goods. The stock is accumulating but there are heavy pay rolls to meet every week. Many manufacturers feel that they would be better off to stop the mills at once, but hesitate to do so. The prospects for a favorable change are not very encouraging. In fine fleeces there is no change. Desirable lots of extra and double extra Pennsylvania and Ohio still command 55@57c, but the stock of these wools is light and in a few hands, while fine fleeces are steady. Fine foreign wools are more or less neglected. Michigan fleeces selling principally at 50@52c. About 150,000 pounds have been taken in this range. In pulled wools business has been smaller than for some weeks, and the feeling is not so firm, although a marked change in prices has been made. For low grades of pulled there is scarcely an inquiry. Combing fleeces still continue in fair demand and the stock of this description are sold up close, but new Kentucky clip is near at hand. Quotations: Ohio and Pennsylvania No. 2 fleece extra and above 49@55c; Michigan 48@53c; Maine 54c; combing and delaine 56@63c; unwashed 24@37½c; low tub washed 42c; scoured 60@95c; noils 25@40c; superfine and extra pulled 40@55c.

Dry Goods.

NEW YORK, April 25.—The trade movement was slow to-day on account of the stormy weather. The market for cotton goods is quiet, but steady, at unchanged prices. Light brown sheetings are more active. Medium bleached cottons are in fair demand. Grain bags are in better request. Prints and printed shirtings are less active. Ginghams are sluggish. Woolen goods show no improvement. Foreign dress goods and silks are lower in first hands.

Live Stock.

CHICAGO, April 24.—Cattle: receipts 500 head; market quiet and unchanged; fair sales at yesterday's prices; shipments 2,218. Hogs: receipts 8,395 head; market fairly active and steady for good grades; at $5.20@5 for common to extra; for poor $4.75@5; shipments 15,000. Sheep: receipts 384 head; market quiet at $6.25@7.25 for medium to extra.

The river rose almost seven feet during the 24 hours ending last evening, with 16 feet in the channel according to the Allegheny marks. It rained almost without cessation all day on Saturday, and it must have been general, in view of the sudden rise to which reference has been made. Business was almost suspended at the wharf, in consequence of the inclement weather.

The Arlington for Memphis, and Exporter for New Orleans, were to have left Cincinnati on Saturday evening.

The John W. Garret left Wheeling on Friday with two barges containing 3,000 kegs nails.

The Juniata did not get out on Saturday in consequence of the inclement weather, but she is announced to take her departure to-morrow without fail. The Mary Miller has been withdrawn from the Pittsburgh and Cincinnati trade for the present.

Captain Isaac Whittaker left for St Louis on Saturday, to look up, we presume, a return trip for the Fearless.

The Belle of Shreveport is announced to take her departure for St. Louis to-day without fail. She is an A 1 boat and offers superior inducements to passengers.

The Carrie Brooks was due from Zanesville last night, and will doubtless be found in port this morning.

The Ironsides was expected to arrive at St. Louis on Friday from Keokuk, to which point, if we are not mistaken, she took a tow of coal. She will return to this port from St. Louis with a tow of ore.

The Wild Duck, Captain Adams, is announced to take her departure for St. Louis to-morrow evening.

The Bengal Tiger, Joseph Walton and Lioness No2, arrived at Cincinnati on Friday, and the latter boat proceeded on to Cairo.

The Rover was to have taken her departure for St. Louis at daylight yesterday. She had two barges well laden, including among other items, 600 tons of shell for the arsenal at Rock Island.

The Belle of Shreveport has engagements at Steubenville and Wheeling, and she will doubtless have picked up a pretty good trip by the time she reaches Cincinnati. She is said to be a twelve hundred ton boat.

John B. Livingston, formerly a well known steamboat agent, but who of late years, has been engaged in other avocations, has been appointed Fire Marshal by the Board of Underwriters of this city. No better selection could have been made.

The Exchange is due here from Cincinnati to-morrow. She will at once commence loading for a return trip.

Commodore S B Coulson, who was here for several days on a visit to his family, left for Yankton on Thursday last.

Captain R C Mason succeeds Captain Wm Coulson in command of the S B Durfee. Captain Coulson is now first engineer on the Western. The Durfee's cabin and upper guards have been taken off in order to lighten her up.

The Exchange left Cincinnati on Thursday with a fair trip, including some 300 tons of freight and 40 cabin passengers.

The John Gilmore left Louisville on Thursday on her way Southward with a tow of coal and coke. She will exchange tows with the John Gilmore when she meets her.

—Saturday's Cincinnati "Commercial" has the following: The Joseph Walton, Lioness and H E Pierrepont arrived with coal. The Kanawha Belle, D T Lane, Kate Dickson, Bengal Tiger and Kate Walters No 2 passed up with empty tows—With sorrow we announce the decease of Robert Moore, who died on Wednesday, the 22d, on his farm in West Virginia, opposite Wellsville, Ohio, in the sixty-seventh year of his age. He was a brother of Captain Dan Moore, of the steamer Arlington—At last accounts the wreck and cargo of the Camelia were scattered all along shore. The hull is lodged and badly broken up. The cabin is lodged on the Kentucky shore, between Burbank's and Marshall's Landings. Considerable of her freight has been picked up by wreckers and carried to Shawneetown. Mrs. Drake and her children were passengers for Nashville. Mrs. Drake had $2,000 worth of furniture and other freight on board, and had $800 in her trunk. All were lost, and she and her children barely escaped with their lives.——The steamer Marie Louise, while trying to tow a pair of ice barges up Red River, sank one of them near Alexandria, and left the other, owing to the strong current.

—The Omaha "Republican," of the 22d, says: The Nellie Peck and her boilers inspected yesterday—The Far West and Key West, which have been on the ways all winter, are expected to be launched to-morrow.

—The Sioux City "Journal" of Tuesday says: The Far West was launched yesterday, and the Key West will be removed from the ways this morning. Up to last evening, since Saturday, the river at this point had risen nearly or quite three feet. The steamer Josephine is expected at leave Yankton for Bismarck to-morrow evening. The Katie P. Kountz, from St. Louis for Benton, arrived at noon yesterday, and expected to leave at daylight this morning. The Western, Captain William B Massie, with Barney Earle as clerk, arrived from St. Louis yesterday afternoon on her way to Benton. The Western left with about fourteen days when she reached here. She cleared last evening.

—Sunday's Cincinnati "Commercial" says: The Mollie Ebert, from St. Louis, brought 38 bris. sand, 217 bales cotton, 201 sacks peanuts, 100 bundles pipe stems for Cincinnati, and after receiving 100 tons freight here departed for Pittsburgh with 700 tons freight. The My Choice with a tow of coal from Pittsburgh, arrived.—The Charley Brown No. 2 passed up on Friday night with an empty tow—Two large rafts of pine lumber landed at California, Ohio, yesterday, with their crews came down to the City of Portsmouth, en route to their homes on the head waters of the Allegheny—At St. Louis on Friday the Henry Ames was sold by the United States Marshal, and purchased by Captain N. Springer for $16,150. Captain W. J. Rush $43,500, when he dropped off. Commodore R C Gray is expected here from Quincy on the Ironsides to-night, and will leave for Pittsburgh in a day or two.

—The Cincinnati "Commercial" of Friday says of James Howard, the veteran boat builder: Mr. Howard is a native of this city, and learned his profession in Cincinnati with Saunders W. Hartshorn, with whom he was engaged in boat building from 1819 to 1834. After a short stay in Madison, he located in Jeffersonville, where he has built over three hundred and eighty steamers, including the smallest as well as the largest and finest afloat. Among his last efforts may be classed the Ida Handy, Olive Branch, two Ruths, and the mammoth carrier, James Howard, named after this distinguished builder.

—Saturday's Louisville "Courier Journal" says: Captain L. K. McCoy, an old and well known river man, died at a National Hotel night before last after a brief illness. He had been in the city for several days looking after some property he owned here. His remains were taken yesterday to the O. and M depot, to be forwarded to McCoy's Landing, on the Ohio river above Steubenville. Mr. McCoy flatboated on the river with Mr. Lincoln, and during their lives they were warm friends.

—A dispatch from Louisville says parties connected with the E & P. R. R. agree to furnish Kentucky coal at Paducah at 8½ cents. From McDonald's reports it appears that the late run of coal is upward of 40,000,000 bushels; shipments south 375,000,000 bushels; in first hands above the falls 160,000,000 bushels; below the falls 2,000,000 bushels.

—There was twelve thousand dollars insurance on the Cincinnati freight on board the Camelia. The Louisville freight was mostly insured.

—The "guerrillas" are at work on the wreck of the Camelia, and making a good haul.

Notice to Subscribers.

Our subscribers in Lawrenceville and vicinity, formerly served by John Cox, are notified that the GAZETTE will hereafter be delivered by Mr. George Schultz, to whom all payments should be made.

$25 Reward.

We will pay twenty-five dollars to any one who will furnish us the name of the *thief* who is stealing GAZETTE'S out of the offices on Grant street. Here is a chance for one of our detectives or policemen to make some money easily.

Thrown Out.

About 10 o'clock yesterday morning as Mr. C. C. Cole was driving around the corner of East and Ohio streets, Allegheny, two little boys ran out in front of his horse, and to prevent running over them he turned to the other side, turning so short that the horse fell upon the sidewalk and Mr. Cole was thrown out of the wagon, and badly bruised. He was assisted into a house near by where his injuries were attended to.

The College Journal.

It is not because they do not deserve it that we fail to make commendatory notice of the successive numbers of this really meritorious literary monthly. It is edited chiefly by the students of the Western University, but is frequently enriched by contributions from the learned and able faculty. In the number for February, which has been delayed until now, will be found an admirable article, "The Possibilities of Life," full of useful and suggestive thought, from the pen of Chancellor Woods, which, with "Strange if True, "Educational Suicide," "Work not Genius," and sundry minor articles make this number, like its predecessors, very interesting and instructive.

Police Items.

LAST evening about eight o'clock an old man called at the Allegheny Mayor's office and wanted to make an information against his daughter to have her sent to the House of Refuge. He states that she was in a house of doubtful reputation and he wanted to get her out of that. He was told to come back this morning, when his wants would be attended to, as no information could be taken last evening, it being Sunday, whereupon he retired, but promised to return and make the information to day.

MAYOR NEILLIE, of Allegheny, yesterday morning disposed of five very common cases. From that time until 8 o'clock last evening the lock-up remained empty, when James Riley was brought in and locked up for being drunk on Federal street.

A Three Hundred Dollar Fire.

About half-past eight o'clock last night a fire broke out in the residence of John Owens, at the corner of Sweeny's alley and Wylie avenue. It seems the house was entirely deserted, all the inmates having gone to church. Two young men who were standing near the dwelling state that they heard an explosion, and on going to ascertain the cause of the noise, discovered the dwelling on fire, and from that circumstance it is inferred that the fire was caused by the explosion of a lamp that had probably been left burning on a table. An alarm was struck from Box 57, at the corner of Centre avenue and Green street, and the flames were extinguished before the structure was entirely destroyed. The loss is estimated at about $300. Three of the rooms in the house, which is a two-story brick, were pretty well gutted. Mr. Owens, it is said, has been burnt out several times before, and if such is the case, he is certainly unfortunate.

BOATING NEWS.

"Eph." Morris' Challenge to Billy Scharff.

"Eph." Morris, of the Clipper Boat Club, has challenged Billy Scharff to row him either a three or five mile sculler's race for one thousand dollars a side, on the lower Monongahela course. To-morrow evening a meeting will be held at Manning's saloon, on the corner of Penn avenue and Eleventh street, to arrange the preliminaries. Morris has challenged Biglin, Ward and Fulton, but did not succeed in getting an answer from them. It is not likely that Scharff will consent to row Morris on the lower Monongahela course, owing to the fact that so many fouls have been made there, and because there are numerous opportunities for the interference of tow boats, ferry boats and other river craft. How the meeting to-morrow evening will end is more than can now be foreseen, but it is well known that Scharff wanted to measure blades with Morris, and settle the claim to the championship of Pittsburgh, before he threw down the gauntlet to eastern rowers for a contest for the championship of America. He wants the race to come off before he rows Ten Eyck and Brown, and if there is any inclination to stand on technicalities, that is the rock upon which they will probably stick.

BOGUS NICKELS.

Arrest of a Gang of Counterfeiters in Crawford County.

United States Detectives Benson and Pender have succeeded in capturing a gang of counterfeiters in Crawford county. The vast number of bogus nickels that were being put in circulation in that section of the State attracted the attention of the authorities, and tracing them to their source, they were found to come from a drinking saloon in Union City, about twenty miles from Erie. A man testified to having received in change at the bar of that place a number of counterfeit nickles. They were returned to the saloon keeper with the information that they were spurious, and he at once redeemed them. Having been satisfied that this man was in the plot, if not a manufacturer of the spurious coins, himself, an information was made before United United States Commissioner Force, of Erie, against Thomas Earll, the bar-keeper. This was last Tuesday. He was arrested, and finding that the proof against him was positive, he "gave away" the principals in the business, for whom he was acting as agent. Acting on the information furnished by him, the detectives went down to Bloomfield, Crawford county, where two men and a woman were captured. These were John Earll, John Eaton and the latter's wife. With these were taken the stamps, dies and machinery for counterfeiting, and about a bushel of the bogus coins, which were found in their house. Their trial will come off at the next term of the United States Court in Erie.

A YOUNG LADY'S LIFE ATTEMPTED

An Exciting Affair Within the Shadow of Municipal Hall.

A man named "Bill" Early, who is said to be acquainted with the police, having had business with them before, was arrested last night and furnished accommodations in the Central Police Station for attacking a young woman named Nellie Dougherty. This young lady marches under the banner of the free and easy, and is a member of a domestic circle, whose habitat is in a house near the corner of Twelfth and Pike streets. She alleges that about noon yesterday Early came to her room and, drawing a knife, attempted to stab her, but being unsuccessful and compelled to leave the house swore by the hilt of his sword that he would have her life. After nightfall she had occasion to come down to the central part of the city, and discovered that Early was following her. She got on Smithfield street, between Fifth and Sixth avenues, and was afraid to leave the square for fear of being attacked, as she knew Early to be a desperate character, and was aware that he would carry out his threat. He concealed himself in the darkness of Virgin and Cherry alleys and watched her movements. She started up Sixth avenue, and at the corner of Cherry alley he jumped out at her, and, as she avers, attempted to murder her. Turning quickly she fled down the avenue and up to the Mayor's office where the detectives were informed of the transaction. In the meantime Early had returned by way of Cherry alley and down Virgin to Smithfield, where, under the very shadow of the temple of justice, he stationed himself to carry out his nefarious design. The young woman again started out, shadowed by a couple of detectives, and when Early made the second attempt his first motion was seen and in an instant he was in the grasp of two stout officers—Detective Pender and Lieutenant Coulson. Our reporter happened to be in the Station House when the prisoner was brought in, and the way they "whooped" him up was not slow. His determined resistance and terrific struggles to free himself attracted an immense crowd, that trooped in after the three principal actors in this drama, that fortunately did not end in a tragedy. Early was placed in a cell and will have a hearing this morning.

J. B. Sneathen & Co. vs. Staib & Co., Pittsburgh. Injunction ordered against S. Ewart & Co., and John Aiken, their attorney.

Suits were entered by District Attorney Reed, against the sureties of Seth B. House, of Lewisburg, Union county, on a bond for the manufacture of friction matches, and also against the sureties of John M. Meyers, a mail contractor of Washington county.

Common Pleas Court.

[Before Judges Sterrett and Stowe.]

Application was made by the Tenth ward, Allegheny, School Directors to borrow money not exceeding eighteen thousand dollars, for erecting school houses. The petition was filed and due notice ordered to be given.

DIVORCE CASES.

Elizabeth Price, through her next friend, William J. Early, filed an application for a divorce from her husband, Wm. J. Early, on grounds of desertion. The parties were married in 1867. A subpœna was awarded, returnable the first Monday in June.

Louisa Findley, through her next friend, Frederick Meyers, filed a petition in divorce from her husband, John Findley, on grounds of adultery. The usual subpœna was awarded.

Anne Lonergan asked for a divorce from her husband, Thomas C. Lonergan, on the ground of cruel treatment and a failure to support her. A subpœna was awarded.

Through her next friend, Henry Bailey, Sarah J. Bonfield presented a petition for a divorce from her husband, John Milton Bonfield. The parties were married in 1848, and in 1867, the petitioner alleges, she was deserted by her husband. A subpœna was awarded.

Cornelia A. Simpson, by her next friend, Samuel McElroy, asks for a divorce from her husband, Arthur Simpson, on the grounds of desertion and abandonment and adultery. Subpœna was awarded.

Louise A. Garrison asked through her next friend, John Whittenberger, for a divorce from her husband, George W. Garrison, on grounds of desertion and abandonment. Subpœna awarded.

A petition was filed for a charter of incorporation for the new Mutual Building and Loan Association. A preliminary order was made.

HILAND AVENUE.

The bill in equity filed by City Solicitor Bigelow, against the Hiland avenue Commissioners, to restrain them from laying down a sidewalk under the Penn avenue act, came up for discussion. It will be recollected that a similar bill was presented in the District Court, but withdrawn, inasmuch as Hon. Thomas Mellon was allowed to file an intervention, attacking the constitutionality of the Penn Avenue Act itself. The question was an important one, and of course both the city and all the Improvement Commissioners were anxious to have it settled at an early a date as possible. R. B. Carnahan, Esq., representing the defendants, demurred to the bill, and after a brief argument, the court, consisting of all the judges, unanimously rendered a decision in affirmance of the position taken by the Commissioners and so dismissed the bill.

BILL IN EQUITY AGAINST LIBERTY AVENUE COMMISSIONERS.

A bill in equity was filed on behalf of Wm. McCutcheon, P. McCabe, and Elizabeth F. Denny, against the City of Pittsburgh, the Commissioners for the Improvement of Liberty avenue, and the firm of McPherson & Co., contractors. The petitioners set forth that they are the owners of certain lands abutting on Liberty avenue, which are described; that Thirty-third street was heretofore graded and paved its entire length, from Thirty-third street to the Monongahela river, the said improvement being made in accordance with the legally established grades of said highways; that the Commissioners are proceeding to change the grade; that it is the intention to raise Liberty avenue, where it crosses Thirty-third street sixteen feet; that this change of grade will cause great and lasting damage, destruction and injury to the properties of the plaintiffs; that the other defendants are the contractors who are executing the work; that Thirty-third street is the only available avenue connecting a large populous district with Liberty avenue; that no provisions are made for the accommodation of travel on Thirty-third street. Wherefore the plaintiffs need equitable relief, and pray the Court now by a preliminary, and thereafter by a perpetual injunction, the defendants, their contractors, agents and workmen may be restrained from obstructing Thirty-third street by a fill or embankment at the intersection of said work with Liberty avenue; also from making a change of grade on Liberty avenue; and also afford such other relief as the circumstance of the case may require. The argument in the case will be heard to-morrow.

RULE ON THE PROTHONOTARY.

S. Geyer, Esq., County Solicitor, presented a petition on behalf of Samuel Kilgore, County Treasurer, for a rule on the Prothonotary to show cause why a mandamus should not issue against him, compelling him to hand over to the Treasurer the last month's receipts of his office, which he retains because of a disputed question as to whether the State is entitled to the receipt of moneys levied on his and other county offices as a State tax. The petition alleges that the law requires the Prothonotary to pay into the County Treasury, on the first Monday of each month, all fees received by him during the month previous. The petition was granted and the Court issued a rule on the Prothonotary, returnable at 10 o'clock A. M., on the second day of May.

Criminal Court.

[Before Judge Collier.]

Smith and James Elkins, for assault and battery, were sentenced, the first to the Workhouse for one year with a fine of ten dollars, and the latter eight months. James was also sentenced for six months for entering a building with intent to commit a felony.

Edward Grinder, for larceny, was sentenced to the Workhouse four months. For larceny and receiving stolen goods, the same defendant was sent up for two months.

Amos Sawer, David McGurly, Robert Donelson and Geo. Sawyer were fined $15 and costs for assault and battery.

Jno. Bruner, for larceny and embezzlement, was sent to the Workhouse for two years.

Wm. H. Wilson, for obstructing an officer, was fined twenty dollars and costs.

James Elkins, for larceny and receiving stolen goods, was sentenced to ten months in the Workhouse.

JNO. ROSS' CASE.

T. M. Marshall, Esq., counsel for Jno. Ross, made an application for the postponement of his trial on the indictments charging him with embezzlement in the water bond business. Mr. Marshall said the principal reason for making the request was the sickness of the defendant, and he read the affidavit of Dr. Andrew Fleming, who certified that if Mr. Ross was placed on trial now, it would seriously reduce him, in his present prostrated condition, and thereby further jeopardize his life. The affidavit of Mr. Ross was also read, stating that Robert J. Grier was an important witness for the defense, and that he had been informed that the attendance of the said Grier could be obtained at a subsequent term of Court. As no objections to a continuation were interposed by the District Attorney, Judge Collier postponed the trial until the next term.

The driver did not recognize either of them, but thinks they attacked him for the purpose of stealing his box of change, which contained $13.

····Arch Street M. E. Church, Allegheny, was reopened for regular services yesterday. The house has been thoroughly renovated, repaired, and largely refurnished, making it as attractive and cosy a place of worship as there is in the city. The services yesterday attracted large audiences. They were conducted by the pastor, the Rev. J. A. Miller, who was unassisted,—the foreign aids expected, failing to put in an appearance.

····At about nine o'clock yesterday morning a young horse hitched to a buggy dashed furiously down Ohio street, Allegheny, reaching Sandusky street it took up that street, taking to the sidewalk. The vehicle struck against the supports of a scaffold where some men had been repairing a house, and broke them down. It also struck against some tree boxes. The shock threw the horse to the ground, where he lay until unharnessed.

····The creditors of Messrs. Reed & Schell met in the Bedford county Grand Jury Rooms, in the Court House at Bedford, Pa., on Saturday last. The firm is claimed own a planing mill and box factory, 323 River avenue, Allegheny, which is run by Reed Bros. Their liabilities are about $200,000, with three years interest, while this property is estimated to be about $75,000, against which there are $47,000 of judgments, including $3,500 by the City of Allegheny for taxes. The firm also own property in Bedford and Somerset counties. It is proposed to release the judgments against the factory, which will enable the firm to pay their other liabilities.

····The eminent and highly distinguished political pole-cat, who cooks the savory and oderiferous editorials that add such a nice flavor to the columns of the Uniontown *Standard*, is still on the war path, with his tomahawk gleaming high in mid air, and nary a scalp in his belt. It is time for him to dry up. His scalp-hunting days are past, his weapon is dull with use, and his blows fall with the weakness that indicate the want of vigor, the childishness and decrepitude of old age. He reminds one of a debilitated woodpecker vainly trying to make an impression upon a young and vigorous tree. We commend to his consideration, in connection with his recent writings the following quotation:

"A lie is a lie, no matter how glib
The tongue that tells it, or how fair the nib
Of the pen that writes, or how fine and white
The page that blurs it into light."

PERSONAL.

***Mr. John B. Livingstone has been elected Fire Marshal, by the Board of Fire Underwriters, at a salary of $2,000 per annum.

***City Superintendent Luckey thinks a reduction in the number of public school Principals in Pittsburgh cannot be secured without additional legislation, as the Central Board has not the power to appoint or dismiss Principals.

***Among the gentlemen whose terms as Fire Commissioners are about expiring is George W. Wilson, Esq., President of the Commission. Mr. Wilson has ever been an active and most efficient member, freely giving his time and attention to the interests of the Fire Department on all necessary occasions, more especially since his assumption of the duties of President, and we have no doubt Councils this afternoon will recognize his valuable services and eminent fitness for the position by re-electing him for another term.

AN EXHIBITION OF ENTERPRISE.

A Description of a Leading Pittsburgh Jewelry House—A Chance for a Comparison—How a Complete Stock is Made Up.

The East boasts of its many great enterprises, great undertakings and everything in fact, that makes communities great. Its cities claim the wealth and riches of the land—everything that can be claimed. Its jewelry houses are especially boasted of. This is so of New York and Boston, which claim to have the greatest number, and which carry the most extensive stocks, of any cities in the United States. It is very certain that journals or citizens of these cities, that make such pretentions, have never been west of the Allegheny mountains, for had they been, they could never have stated such an absurdity or made such pretentions. It was our pleasure the other day to take a glance through the large and extensive Jewelry House of Messrs. Geo. Crawford & Co., No. 76 Fifth avenue. This firm is one of the most liberal and enterprising in the city; its members are gentlemen who pay strict attention to business, treat everybody kindly, whether purchaser or not, and they do make it an absolute rule, to sell as cheap as the cheapest, and the very best quality of goods.

THE EXTENT OF THEIR STOCK

is simply immense. Their store and building is filled with as choice a selection as ever graced the establishment of any jewelry house on the American continent. Rambling through their stock, we first came among their clocks. We found a very large collection of elegant French parlor, mantle and other kinds. Here are some from Switzerland; some from England, and an immense stock of the great American clocks. There are many beautiful and elegant designs, rich in their coverings of rare and costly marbles and alabasters, and rare in their finish and fineness of workmanship. Here is one, in a dark Carrara casing. It is plain in outward appearance, but is a marvel in its way. There are three-face dials. One tells you completely and correctly the hour, minute and second of the day. The other tells the day, month and year you live in, while the third is a complete index to the weather, showing a barometer. This clock is of French make, and the works are a complete marvel of skill and mechanism. The clock is complete and perfect in its every detail, and is warranted to be correct. Here are

ELEGANT CHRONOMETER

clocks and chronometers without the appendages of the clocks. Here is a large regulator which attracts our attention. "O," says our gentlemanly guide, "This is for the Penn Bank; it is expressly made for them, through our house." Of course, as we are on time now, we take a glimpse of the watches. Here they have one of the most complete assortments. There are the famous Jurgenson, in solid gold cases; then there are the equally famous Picard, of Geneva, Switzerland, movements, and so many other foreign makes, that it would take too much space to make especial mention of them. The firm, however, make a great specialty of American watches, and just now, they are having an immense run on the famous United States, of Marion, New Jersey. They have a full supply of these on hand. They have them in gold and silver cases, and those that they especially recommend, are the popular United States

RAILROAD TIME KEEPERS.

These watches keep very accurate time, and Mr. Crawford has carried one himself, that has only varied two seconds since he has had it, some six months. Such are the recommendations that go with these goods.

Here we come to solid gold-headed canes. They are certainly elegant and as complete a stock as can be found anywhere in the States. Here are some genuine Malaca ones, ebony, and other very rare woods too numerous to mention. The firm are agents for the manufacturers, of the best swords in the United States. They have a complete stock of these on hand. They are really very fine goods, and may be relied on as being perfect in every requisite. They make a specialty also of making Masonic and other society regalia, and can offer inducements as low as any house in the city. Their stock of society and other badges is very complete and elegant. They are in different patterns of solid gold, also set with rubies, diamonds, many other kinds of precious stones, and every taste being suited. After this comes the stock of

SOLID SILVER WARE.

This is so large, that one would almost be surprised to see it. But the firm do so large a business, that a stock does not lay long on their hands. Here are elegant water setts. The trays are richly chased in chaste designs. The pitchers are marvels of elegance in their very richness, while their goblets are as beautiful as can well be imagined. Elegant and rich tea setts in novel designs are also here in profusion, "fit for the palace of a queen." They will make elegant, useful and acceptable gifts. This stock includes every thing that can be made out of silver. The plated ware stock is also very large and fully as complete. Elegant designs in electro plate are not scarce, and includes water and tea setts, table ware, napkin rings, goblets, salt cellars, and everything, too numerous to mention. A complete stock of music boxes is a great feature here. They can procure them of from two to five hundred tunes, and at prices from ten to ten thousand dollars each. There are many beautiful articles in this line in this establishment, playing almost any number of tunes. The cases are of various woods and designs, inlaid or not, just as the taste of the purchaser requires.

SPECTACLES AND BAROMETORS

the firm make a great specialty of. They have in spectacles, probably, the largest stock in the city, on hand. They are experienced opticians, and do not make the sight suit the spectacles, but they make spectacles to suit the sight. In this line the firm guarantee satisfaction, as they do in everything else they sell. Here are immense trays of sleeve buttons and studs, all in solid gold. Some have settings, others are plain. There are designs in letters, Masonic buttons, in fact, every style. The stock of rings is also very great. The solid gold ones are not at all scarce and are warranted 18 carat fine. Onyx, cameo, amythist and other rare stones includes the settings. In ladies setts there are many new and beautiful styles, and their coral collection cannot be beaten for elegance of design and novelty. Now while speaking of setts,

THEIR DIAMOND STOCK

should not be forgotten. It is large and well assorted, and includes diamond ear rings and brooches, rings, solitaire and cluster, necklaces, and in fact, everything in that line. Their field and opera glasses take up no small portion of the stock in this house, and it will be found, that a complete assortment of these goods will be found on hand. They have also some very fine telescopes, very large, to which the attention of scientific men is drawn, as there are very few houses west of New York that keep these expensive articles. In conclusion, we would call the attention to the fact, that the firm of Messrs. George Crawford & Co., No. 76 Fifth avenue, are also manufacturing jewelers. That they have a complete shop, where the finest watches are repaired; where diamonds are reset and repaired; where the best skill is employed, and where, in fact, everything can be done as well as in the East. We heartily recommend the house, as being one with which the public can deal, and where they are sure of getting goods as they are represented, and at prices low as the lowest. Remember the house, 76 Fifth avenue.

DO NOT PERSECUTE THE BODY

In sickness with medicines that depress the physical energies. What the sick principally need is an accession of vital strength to enable them to cope with the enemy that has assailed them. The diseased system should be sustained, toned, purified and regulated, and there is no medical preparation in existence so largely-endowed with the properties required to effect these objects as Hostetter's Stomach Bitters. In ordinary practice, aperient, blood-depurating, anti-bilious and sedative medicines are administered separately. In Hostetter's Bitters all these agents are combined, so that undue debility and undue excitement are alike prevented and the strength of the patient rallies while the disease is losing ground. In dyspepsia, liver complaint, chronic constipation, intermittent fevers, general weakness and all ailments involving physical and mental depression, this pure vegetable restorative is a sovereign remedy.

AMUSEMENTS.

PITTSBURGH OPERA HOUSE.—Dion Boucicault's great society drama, "Led Astray," the most successful of his many productions, will have its first representation at the Opera House this evening, with Mrs. D. P. Bowers, one of America's most talented and justly popular actresses, in the *role* of *Armande Chandoce*, supported by Mr. J. C. McCollom and the excellent stock company. "Led Astray" has been running for weeks to crowded houses in Boston, New York, Philadelphia, Washington, San Francisco and other cities, and Pittsburgh will certainly form no exception to the rule, so far as large audiences is concerned. The management spared neither care nor expense in new scenery, costumes and all necessary attention to details, and Mrs. Bowers will be afforded a fine opportunity to bring into play her magnificent dramatic powers. Those who desire seats should secure them during the day at the ticket office.

ACADEMY OF MUSIC.—The engagement of Bullock's Royal Marionettes has been prolonged another week, owing to their immense popularity and the desire of the public that they remain longer. One visit is enough to convince a person of the great amount of enjoyment contained in the pleasing entertainment and a wish to see the funny puppets again. So ingenious is the mechanism by which they are managed and so natural is the ventriloquism by which they are made to talk, sing and dance that it requires no great stretch of imagination to think they are alive. The extravagant contortions of the clown and pantaloon in the pantomime would make a stoic laugh. There is nothing improper about the whole exhibition. We are pleased to know that Manager Beamer is meeting with success, for he has given us nothing but first class entertainments during the entire season. The Marionettes will perform every evening and also on Wednesday, Thursday and Saturday afternoons.

THE GREAT FOREPAUGH SHOW.—The world-renowned showman, Adam Forepaugh, with his great double ring Circus, enormous Menagerie and extensive Museum, *has arrived*, and will give two monster exhibitions this afternoon and evening in East Liberty. During the forenoon our East End friends will be favored with a street parade surpassing in magnificence anything ever witnessed there. On Tuesday morning the grand *entree* into the city will take place, parading the principal streets previous to proceeding to the corner of Penn avenue and Thirty-first street, where afternoon and evening performances will be given. On Wednesday the great aggregation goes to Birmingham, and exhibits the balance of the week in Allegheny. There are over 1,500 wild animals and birds of prey in the menagerie, and it is one of the largest and finest in America; museum contains wax figures and many other great curiosities, and the circus is claimed to be the finest traveling.

MARTIN'S NEW VARIETY THEATRE.—The combination at this pleasant place of amusement is one of the largest and best that has ever appeared at a variety theatre in the city. Eleven new stars are announced to appear this evening, in addition to quite a number of last week's troupe—among the latter being the inimitable Walter Bray, Miss Lizzie Wasser, Annie Hindle, Graham, &c. The new members of the company stand at the top of the profession in their particular line and cannot fail to please the large audiences that will assemble at Martin's New Variety during the present week. The olio entertainments, songs, dances, ballads and enjoyable specialties, with the musical extravaganza "The White Fawn," form a most entertaining programme.

LIBRARY HALL.—Kelly and Leon's favorite minstrel troupe will give two of their popular performances at Library Hall, to-morrow and Wednesday evenings. Among the attractions offered is the famous operetta "Mons. Chufleuri; or the Prima Donna of a Night," a sprightly little musical comedy, one of Offenbach's first efforts, abounding in fine solos, duets and concerted pieces. The usual minstrel programme will be performed in addition to the operetta, including new and original specialties.

CITY HALL.—Young and old of both sexes continue to crowd City Hall, where the Orphan's Fair is in progress, and great interest is evinced in the contests for the various articles offered by vote and chance at the tables. The evening promenade forms a prominent feature of the Fair.

Something About Starch.—A poor starch is a nuisance to the laundress, to the housekeeper, and to every one who has taste enough to enjoy clean linen. Not only does the lady or the gentleman who suffers common starch to intrude upon their cloths deny themselves an important luxury, but they suffer in other ways, for common starch being impure, yellow, sour, or musty, discolors or destroys their linen. To satisfy any person what a pure article really is, let them try Duryeas' "Satin Gloss Starch." It is easy to use, gives a beautiful, clear finish, is snow white, and goes further than any other starch made. MWF.

European Steamship Arrivals Saturday.

Dispatches received at Max Schamberg's European Steamship, Exchange and Telegraph Office, at No. 163 Smithfield street, announce the arrival of the steamer Calabria, at New York; steamer St. Laurent, at New York; steamer State of Georgia, at New York; steamer Abyssinia, at Queenstown.
